

PSB TRACKER – QUESTIONNAIRE – 2017

INTRODUCTION:

We are conducting a study looking at the quality of television in the UK, and people's attitudes to TV channels (amongst other things).

This study is being carried out for Ofcom (the Office of Communications) which is the body responsible for overseeing the quality of television in the UK. The information from the study will help Ofcom to understand people's attitudes towards television channels.

QUOTA QUESTIONS

To start with, we'd just like to ask a few questions about you. These are only to help analyse the results at a broad level and will not be used to identify you in any way.

Q44 Which of the following best describes the main income earner in your household? If they're retired and receive a private pension, please think back to their last job before retirement.

Please note:

1. If you live in a household with others, but have separate finances, do not include them in this question. Only consider those who have shared incomes/ outgoings.
2. If the main income earner has been unemployed for less than 6 months, don't answer 'unemployed', but think back to the last job before that.
3. If they're retired and receiving a **private** pension (e.g. from employment or investments) as well as a state pension, please think back to the last job before retirement.

Please select one.
