Price comparison

Ofcom believes all telephone, broadband and pay-TV customers should get a fair deal. We want customers to shop around with confidence, make informed choices and get the right deal for their needs. Comparison tools, such as price comparison websites, provide a valuable service for people navigating the broad range of telephone, broadband and pay-TV products available today.

Are you looking for a new phone, broadband or TV deal?

A good way to find out what deals are available is to check out the digital comparison tools that have been accredited by Ofcom. Ofcom accreditation is awarded to websites that have had their price comparison services put through a rigorous audit which checks how the site works and whether the information provided is accessible, accurate, transparent, comprehensive, and up to date.

There are currently seven members of the Ofcom accreditation scheme:
