Subject: Geographic variations in B2C parcel delivery services

Hello

As you may have seen, Ofcom's recent [annual monitoring update](#) on post included some discussion on geographic variations in B2C parcel delivery services (p13-15). This was based on information we collected from your company and from other operators.

We have now produced the attached slide pack setting out these findings in more detail, which we are sharing with interested stakeholders.

If you have any questions, please drop me a line.

Best regards
