Satellite - technically assigned		813	953
Space science		569	607
<b>Spectrum access (eg. block assigned spectrum)</b>		190	699
<b>TOTAL - ATTRIBUTABLE Costs / Fees</b>	f	<b>46,064</b>	<b>286,032</b>
<b>TOTAL SPECTRUM MANAGEMENT COSTS</b>	g	<b>50,833</b>	

<sup>a</sup> We are unable to recover costs associated with satellite filings under current legislation. Ofcom is working with DCMS to amend the legislation to enable charging in the future

<sup>b</sup> Fee receipts reflect non-online licence applications (which attract a fee of £20)

<sup>c</sup> By light licences in this section, we are referring to licences which are not technically coordinated and assigned by Ofcom

<sup>d</sup> Radio broadcasting licence class includes analogue and digital radio services

<sup>e</sup> Set-up costs for local TV licensing have been excluded from this cost figure

<sup>f</sup> Cost figure represents the total spectrum costs which are attributable to individual sectors

<sup>g</sup> Figure represents total spectrum management costs as published in our Annual Report. It includes spectrum costs which are non-attributable to individual sectors, such as where we receive direct government funding for spectrum projects.
