A1. Analysis of Planned Expenditure, Fees and Charges for 2024/25	20
---	----

1. Overview

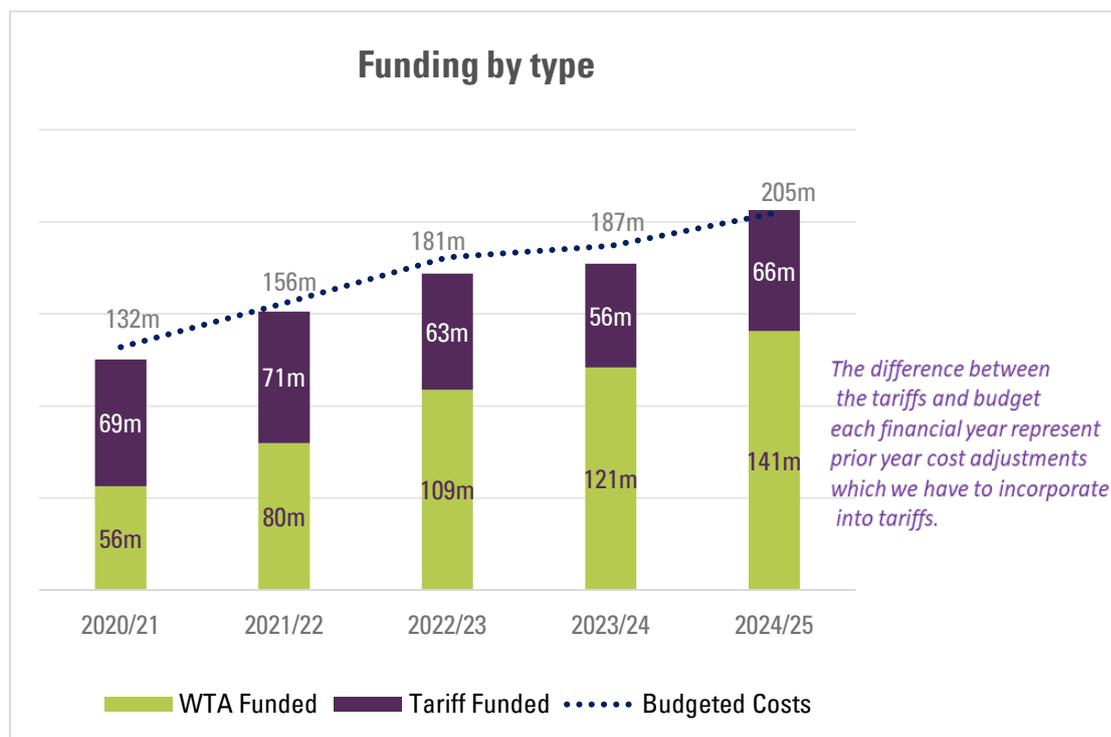

This document sets out the annual fees for our regulatory sectors. It does not detail the fees of individual stakeholders.

2. Ofcom Funding for the year 1 April 2024 to 31 March 2025

2024/25 Budget and 2023/24 expected outturn

- 2.1 The 2024/25 financial year will see an increase in Ofcom’s budget from £187.6m to £204.7m, an increase of £17.1m year on year. This is driven by an additional:
- a) £0.5m for Telecoms Security
 - b) £16.m for Online Safety
 - c) £0.6m for DRCF AI advisory service
- 2.2 These increases will be funded by the retention of Wireless Telegraphy Act (WTA) receipts and not stakeholder tariffs as they relate to relevant expenditure funded by this source of income or continuing preparatory work for Online Safety. The chart below shows our funding split in recent years:

Chart 1: Funding by Type

2.3 In line with statute, we must also ensure that any over/under recovery of costs from prior years are included in our budgeted costs. Thus, the 2024/25 annual fees and WTA receipts retention are underpinned by:

- the 2024/25 budgeted costs of £204.7m; of which £66m is tariff funded;
- under recovery of (£0.04m) which is the difference between the 2023/24 expected outturn and the 2023/24 budget;
- under recovery of (£1.7m) from the finalisation of the 2022/23 year-end accounts;

2.4 It should be noted that stakeholders' individual administrative charges or license fees are underpinned by their sectors proportion of the above cost elements.

2024/25 fees by Sector

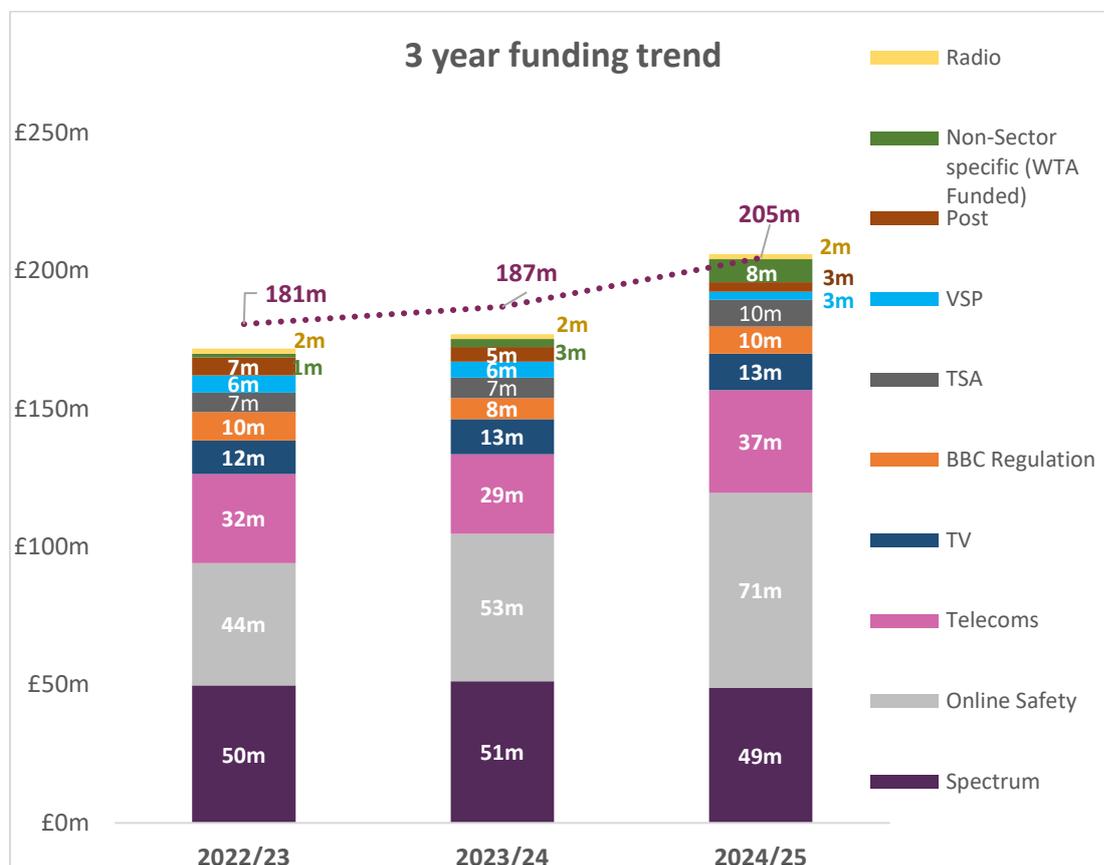

2.5 These 2024/25 Tariff Tables set out the fees due by sector, but do not disclose individual stakeholder charges.

2.6 The 2024/25 plan of work dictates the funding split amongst the different regulatory sectors.

2.7 Additionally, the use of relevant turnover in determining variable fees and charges means that actual costs for some individual stakeholders will vary from the sector average.

2.8 As shown in Chart 2 below, except for costs associated with our new responsibilities, the Networks & Service sector and the BBC, the overall tariffs for each regulatory sector are broadly in line with the 3-year average.

Chart 2: Three-year tariff fees and charges summary by sector (£'m)

- 2.9 The difference between the budget and funding requirement in each financial year in the chart above, represent prior year cost adjustments which are incorporated in our fees.

Other Ofcom work not covered by these Tariff Tables

- 2.10 On 14 March 2019, Ofcom published its Statement¹ entitled ‘Satellite Filings Cost Recovery’ setting out, and giving its notice of, the approach and charges we have introduced for carrying out its satellite filing work.
- 2.11 In addition, Ofcom has separate powers to charge fees that are payable by any operator of an essential service (OES) to Ofcom to recover our reasonable costs incurred in carrying out a NIS function under regulation 21 of the Network and Information Systems Regulations 2018 (SI 2018/506 as amended by SI 2018/629).
- 2.12 Therefore, our work in these areas is not covered by these Tariff Tables as they are dealt with separately in those specific contexts².

¹ <https://www.ofcom.org.uk/consultations-and-statements/category-1/satellite-filings-cost-recovery>

² ODPS stakeholders will be contacted separately in due course regarding their 2022/23 fees; but please note that the broadcasting licence fees do not include any costs associated with ODPS.

3. Ofcom Licence Fees and Administrative Charges

3.1 The following sections of this document set out Ofcom’s Tariff Tables to fix, and give notice of, our fees and charges for the year from 1 April 2024 to 31 March 2025. We deal with the following sectors in four sections as follows:

- Section 4: Networks and Services Charges (including charges for the Electronic Communications Code);
- Section 5: Television Licence Fees;
- Section 6: Radio Licence Fees; and
- Section 7: Postal Charges.

4. Networks and Services Charges

Administrative Charges for the Networks and Services Sector

- 4.1 Under Ofcom’s Notice of Designation³ under section 38 of the Communications Act 2003, each person providing any electronic communications network, electronic communications service, or making available any associated facility is liable to pay to Ofcom the administrative charge that is fixed by Ofcom for the case that is applicable to him in respect of ‘Relevant Turnover’⁴ from ‘Relevant Activities’ of £5 million or more in the last but one calendar year prior to the charging year in question.
- 4.2 The administrative charges that Ofcom has fixed for the Networks and Services sector for each person’s ‘Relevant Turnover’ of £5 million or more in respect of the calendar year which ended on 31 December 2022 are shown in Table 1 below.
- 4.3 The administrative charge is based on 0.1070% of the total amount of Relevant Turnover figures reported by stakeholders to Ofcom for the calendar year ended 31 December 2022.

⁴ Ofcom’s Notice of Designation defines ‘Relevant Turnover’ as “turnover made from carrying on any Relevant Activity after the deduction of sales rebates, value added tax and other taxes directly related to turnover”. It also defines ‘Relevant Activity’ as “any of the following: a. the provision of Electronic Communications Services to third parties; b. the provision of Electronic Communications Networks, Electronic Communications Services and Network Access to Communications Providers; or c. the making available of Associated Facilities to Communications Providers”.

Monthly Payment

- 4.4 If the annual administrative charge as calculated above is more than £75,000, Ofcom will automatically allow payment of the amount due in monthly instalments. For amounts below this threshold please contact Ofcom to agree a payment schedule if required.

Administrative Charges for the Electronic Communications Code

- 4.5 Persons to whom the Electronic Communications Code (the 'Code') has been applied and who have therefore been granted 'Code powers' must pay an annual administrative fee. The fee is shown in Table 2 below for 2024/25.

Table 2: Electronic Communications Code Annual Administrative charges

	Tariff for 2024/25 (£)
Annual Administrative Charge	1,000

- 4.6 The beneficiary of Code powers is charged once for administration of the Code, regardless of how many Code powers that beneficiary maintains.

Application Fee for the Electronic Communications Code

- 4.7 Persons who have been granted Code powers in a charging year must pay a one-off charge in respect of the estimated costs of dealing with their application for the Code, as shown in Table 3 below.

Table 3: Electronic Communications Code Application Charge

	Tariff for 2024/25 (£)

5. Television Licence Fees

5.1 The categories of Television licences are:

- a) **Category A** – Channel 3, Channel 4, Channel 5, Local Digital Television Programme Service and the Public Teletext Service Licence. (Note that this category includes associated Television Licensable Content Service ('TLCS' licences where content is simulcast);
- b) **Category B** – TLCS Licences, Digital Television Programme Service Licences, Commercial Additional Television Services Licences and Digital Television Additional Service Licences. (Note that this category does not include those TLCS licences which are included in Category A);
- c) **Category C** – Restricted Television Service Licences (long-term and short-term);
- d) **Category D** – Television Multiplex Licences;
- e) **Category E** – Teleshopping Channels.

Category A and B licence fees

5.2 The tariffs for Categories A and B relate to the licensee's Relevant Turnover⁵ for the year which ended 31 December 2022. The tariffs are progressive in that licensees pay proportionately more in fees as their Relevant Turnover increases, based on a cumulative sliding scale (see Table 4 below). There is a maximum Relevant Turnover cap of £300m, beyond which no additional fee is payable.

Table 4: Category A and B Licence Fees

Relevant Turnover Bands	Category A PSB / Local TV Revenues	Category A PSB Simulcast Revenues	Category B Revenues
£0m – £10m	0.17310%	0.17310%	0.02285%
£10m – £35m	0.25964%	0.25964%	0.04577%
£35m – £75m	0.38947%	0.38947%	0.09153%
£75m – £300m	0.58420%	0.58420%	0.18306%
Above £300m	0.00000%	0.00000%	0.00000%

Notes:

Minimum Fee = £1,000

Rates are expressed cumulatively, e.g., for Category A licensees, 0.17310% is charged on the first £10m of Relevant Turnover; 0.25964% on the next £25m; 0.38947% on the next £40m and 0.58420% on the next £225m.

⁵ The concept of 'Relevant Turnover' for the purposes of calculating Television Licence fees is detailed in Ofcom's SoCP – see footnote 2 for the link to this document on our website.

Monthly Payment

5.3 If the annual licence fee calculated is more than £75,000, Ofcom will automatically allow payment of the amount due in monthly instalments. For amounts below this threshold please contact Ofcom to agree a payment schedule if required.

Category C, D and E licence fees

5.4 Licence fees for Categories C, D and E are shown in Tables 5 to 7 respectively below.

Public Service-Digital Television Programme Service (PS-DTPS)	15,000	1,000
Local Digital Television Programme Service	2,500	1,000

5.6 When the request to vary a PS-DTPS is made by a person who is a relevant public service broadcaster by virtue of holding a Channel 3 licence, and that variation is made on behalf of all the holders of regional Channel 3 licences who also hold PS-DTPS licences, this will typically be deemed as one variation request to which one variation fee is applicable.

6. Radio Licence Fees

6.1 This section 6 “Radio Licence Fees” sets out the annual fees payable in respect of the radio licence issued pursuant to the Broadcasting Act 1990 and the Broadcasting Act 1996. For the avoidance of doubts, the holders of radio licences may also be subject to fees payable in respect of licences issued by Ofcom pursuant to the Wireless and Telegraphy Act 2006.

National and Local Licence – Application and Licence Fees

Application Fees

6.2 All new applications for national and local radio licences must be accompanied by a non-refundable application fee. The fees for each relevant licence category are shown in Table 9 below.

Table 9: National and Local Radio Licence Applications

	Population (Aged 15+)	Tariff for 2024/25 (£)	
		FM	AM
National Licences

Category C	400,000-1,000,000	10,000	3,500
Category D	0-400,000	5,000	1,000

Annual Licence Fees

6.3 Annual licence fees are calculated as a percentage of the annual Relevant Turnover⁶ obtained from the licence for the calendar year which ended on 31 December 2022, as shown in Table 10 below.

Table 10: National and Local Radio Licence Fees

Bands	Tariff for 2024/25 % of Relevant Turnover
£0m – £1m	0.105%
£1m – £5m	0.157%
Over £5m	0.236%

⁶ The concept of ‘Relevant Turnover’ for the purposes of calculating Radio Licence fees is detailed in Ofcom’s SoCP – see footnote 2 for the link to this document on our website.

Monthly Payment

- 6.4 If the annual licence fee calculated is more than £5,000, Ofcom will automatically allow payment of the amount due in monthly instalments. For amounts below this threshold please contact Ofcom to agree a payment schedule if required.

De Minimis Threshold

- 6.5 The fee for holding national and local radio licences is set at zero where the fee due would otherwise be less than £100. This is in the interests of efficient administration for both Ofcom and licensees. Therefore, the de minimis threshold is £100 for existing national and local radio licence fees.

Fees for Renewal of National and Local Licences

- 6.6 All applications for renewal of national and local radio licences must be accompanied by a non-refundable application fee. The fees for renewing each relevant licence category are shown in Table 11 below.

7. Postal Charges

Administrative Charges for the Postal Sector

- 7.1 The allocation of costs for the postal sector is determined in accordance with the methodology described in Ofcom’s separate Statement of Charging Principles for carrying out its postal services functions.⁷
- 7.2 As explained in those Principles, the administrative charge payable by a liable relevant postal operator is calculated by multiplying the total estimated cost of Ofcom carrying out its postal services functions referred to in paragraph 2 of Schedule 4 to the Postal Services Act 2011 by that operator’s share of relevant turnover expressed as a percentage of the total relevant turnover generated by all liable relevant postal operators for the charging year in question.
- 7.3 Those Principles also state that the tariff applicable to the postal services sector will be set out in these Tariff Tables, which is £3.4m for 2024/25. Ofcom will use this figure to calculate each relevant postal operator’s administrative charge.

Monthly Payment

- 7.4 If the annual administrative charge as calculated above is more than £75,000, Ofcom will automatically allow payment of the amount due in monthly instalments. For amounts below this threshold please contact Ofcom to agree a payment schedule if required.

⁷ See Annex 5 to Ofcom’s statement entitled ‘Recovering postal regulation and consumer advocacy costs’, as published on 29 March 2018: <https://www.ofcom.org.uk/consultations-and-statements/category-2/recovering-postal-regulation-costs>.
