

GOOD FOR THE 250,000 THOUSAND SIGNERS !!! BUT ... WHAT ABOUT THE 10-12 MILLION NON-SIGNERS? What do we get? When My husband collapsed, I knew I couldn't use the phone due to hearing loss. I tried the option given but knew that for years I'd never been able to master it and there wasn't time to mess about. So I had to try to find someone at home who could make a call for me and this, in the end, wasted too much time and I have to live with that knowledge. He died.

I don't want anyone else to go through what I did. The 10-12 MILLION NON SIGNERS need something instead of 111 TOO !! If something can be provided for 250,000 THOUSAND SIGNERS, the VAST MAJORITY of MILLIONS OF NON-SIGNERS should definitely have something BETTER !!! This feels like discrimination!
