Question	Your response
Consultation question 1: Do you have any views on the potential impact of the proposed change?	We agree with Ofcom's assessment.
Consultation question 2: Do you agree with our proposed change to Paragraph 4.19 of the CLI Guidance? If not, please explain why.	To achieve Ofcom's objective of removing the loophole whereby scammers can spoof a UK number from abroad, providers could block or anonymise the CLI. We believe that anonymising spoofed calls would remove the motivation for scammers to spoof the CLI. This is because an end user would see "private number" or "no caller ID" on their device rather than a spoofed number pretending to come from a legitimate organisation. We would therefore propose the following change to the last sentence of the wording in paragraph 4.19: "Except in these use cases, calls from abroad using UK CLI should be **blocked or anonymised**."
Consultation question 3: Do you agree with proposed implementation date of six months after the publication of the Statement? If not, please explain why.	We are reviewing the options of implementing the proposed changes set out in the consultation with our suppliers (either to block or anonymise) and we understand that this could take longer than the proposed 6 month timeframe outlined by Ofcom. We therefore request that the timeframe for implementation is extended to 9 months from the date of the published statement.
Consultation question 4: Do you agree with our assessment of the potential impact on specific groups of persons?	We agree with Ofcom's assessment.
Consultation question 5: Do you agree with our assessment of the potential impact of our proposal on the Welsh language?	No comment.
