Question 1: Do you have any comments on our proposal to apply Code powers to the Applicant?	Confidential? – N As on previous occasions, I wish to register a strong objection to the further application of Code powers to this or any other company. These powers are directly contrary to the public interest and lead to completely unacceptable environmental damage, while only benefitting private corporate profits. There has been no environmental assessment of this technology at any stage, and there is mounting evidence of severe harm to public health, human rights, democracy, and biodiversity. To continue to grant such powers to companies is to ignore OfCom's duty of care to people and planet alike.

Please complete this form in full and return to ECCcodepowers@ofcom.org.uk.
