

Response From Ms Diana Donald

It is amazing that the USA has never needed to change it's calling codes for each state, but the UK is unable to do this and I wonder why. The US also does not resort to 0870 and 0845 type numbers which are yet another UK rip off designed by rip off merchants for rip off merchants. I believe it is time that you represent the British public and stop this nonsense.

I would like to know why we need to keep changing calling codes? Why 0870 and 0845 numbers can not be banned?

Diana Donald
