

Response From Mr Rick Abel

Hi,

I think it is appalling that numbers beginning with 08 should have a charge that is more than dialing a local number in your own telephone exchange.

Anyone advertising such a number should list the price per minute for calling and an alternative number.

Phone companies - both land line and mobile - should be obliged to include this in their inclusive packages instead of charging these separately.

Please ensure that these abuses are stopped.

Thank you
Rick Abel
