<p>Locally-made hours and/or local news bulletins</p> <p><i>Complete this section if you are requesting a change to this part of your Format</i></p>	<p>Current obligations: At least 10 hours a day during daytime weekdays (must include breakfast). At least 4 hours daytime Saturdays and Sundays.</p>
	<p>Proposed new obligations: At least 3 hours a day during daytime weekdays Local news must be broadcast at least hourly during daytime weekdays and peak-time weekend.</p>

The holder of an analogue local commercial radio licence may apply to Ofcom to have the station's Format amended. Any application should be made using the layout shown on this form, and should be in accordance with Ofcom's published procedures for Format changes.¹ Under section 106(1A) of the Broadcasting Act 1990 (as amended), Ofcom may consent to a change of a Format only if it is satisfied that *at least* one of the following five statutory criteria is satisfied:

- (a) *that the departure would not substantially alter the character of the service;*
- (b) *that the departure would not narrow the range of programmes available by way of relevant independent radio services to persons living in the area or locality for which the service is licensed to be provided;*
- (c) *that the departure would be conducive to the maintenance or promotion of fair and effective competition*
- (d) *that there is evidence that, amongst persons living in that area or locality, there is a significant demand for, or significant support for, the change that would result from the departure; or*
- (e) *that (i) the departure would result from programmes included in the licensed service ceasing to be made at premises in the area or locality for which the service is provided, but (ii) those programmes would continue to be made wholly or partly at premises within the approved area (as defined in section 314 of the Communications Act 2003 (local content and character of services)).*

Only one of these five criteria need be satisfied in order for Ofcom to consent to the proposed change. However, even if Ofcom is of the opinion that the proposed change satisfies one or more of the statutory criteria, there may be reasons (depending on the particular circumstances of the case) why Ofcom may not consent to the proposed change. The additional criteria to which Ofcom will have regard when exercising this discretion can be found on our website.²

Applicants should note that, under section 106ZA of the same Act (as amended), a proposed change that *does not* satisfy the first or last of these criteria (i.e. a change that Ofcom considers *would* or *could* substantially alter the character of the service, or does not relate to

¹ Available at https://www.ofcom.org.uk/data/assets/pdf_file/0024/87405/The-regulation-of-Format-changes.pdf

² At https://www.ofcom.org.uk/data/assets/pdf_file/0024/87405/The-regulation-of-Format-changes.pdf

the origin of locally-made programmes) must, if it is to be considered further under any of the other three criteria, be consulted upon.

In the event that Ofcom receives a request for Format change and considers that criterion (a) or (e) is *not* satisfied, it will seek confirmation from the applicant as to whether it wishes to proceed with the request (and, if so, whether it wishes to amend or replace its submission in light of the necessity to make it public).#

Please set out the statutory criterion, or criteria, set out in section 106(1A) of the Broadcasting Act 1990 that you believe is/are satisfied in relation to this Format change request, and the reasons for this.

- a. The proposed change would not substantially alter the character of service. The change to local hours and programme sharing are in line with Ofcom’s localness guidelines. The removal of the words “community based” are in recognition of the fact that the service has not been community based for a number of years, sharing its output with its sister stations across East Anglia. This situation will continue and the station will continue to provide local news and information as today.
- b. The departure would not narrow the range of programmes available, as the station will continue to play a range of classic pop hits, as it does today, and will continue to provide local news and information for the licensed area.
- e. Programmes included in the licensed service will cease to be made at premises in the area or locality for which the service is provided, but those programmes will continue to be made wholly or partly at premises within the approved area.

Please provide any additional information and/or evidence in support of the proposed change(s) below. In particular, the applicant may wish to outline how they see that the proposed change fits within Ofcom’s published Format change request policy³ and also Ofcom’s Localness guidance, which includes our co-location and programme sharing policy.⁴

Notes

Ofcom may approve a change under any of criteria (b) to (d) without consultation, or after a consultation of less than 28 days, if Ofcom considers that to hold a consultation at all, or for 28 days or more, would result in a delay that would be likely to prejudice the interests of the licensee. Ofcom may also remove for the purposes of consultation any confidential information submitted by the licensee.

Data Protection

We require the information requested in this form in order to carry out our licensing duties under the Broadcasting Act 1990, Broadcasting Act 1996 and Communications Act 2003. Please see Ofcom’s General Privacy Statement www.ofcom.org.uk/about-ofcom/foi-dp/general-privacy-statement for further information about how Ofcom handles your personal information and your corresponding rights.

Ofcom notes on the request

Statutory requirements

This request relates to the FM licence for King's Lynn held by KLFM Ltd, currently broadcasting as KLFM.

Every FM local commercial radio station is required to broadcast a service which complies with a defined 'character of service', and also a certain amount of locally-made programming and local news. These requirements are specified in its Format. Locally-made programmes are those made within a station's licensed area or, where Ofcom has approved a wider area relating to that station, that 'approved area'.

KLFM Ltd has requested the following changes to the Format of the King's Lynn licence:

- To produce locally-made programming anywhere within the Ofcom approved area of the East of England.
- To reduce the required number of locally-made programming hours on weekday daytimes from ten to three, and from four to none on weekend days.
- To increase the amount of local news broadcast from at least hourly at peak-times to at least hourly during daytime weekdays and peak-time weekends.
- To share all locally-made programming with other commercial radio stations owned by Bauer in the of East of England Ofcom approved area.

These proposed changes would change the character of service as set out in the Format of the licence, and accordingly can be agreed only if Ofcom is satisfied in regard to one of the statutory criteria set out in section 106(1A) of the Broadcasting Act 1990 (as set out in the request, above).

If we are satisfied in relation to one of the statutory criteria, we are then able to decide whether or not to approve the request, taking account of our published policy criteria.

Assessment

With regard to the request to broadcast locally-made programming from anywhere within the approved area of the East of England, Ofcom was satisfied in relation to section 106(1A)(e) of the Broadcasting Act 1990, on the basis that the change requested, if approved, would result in programmes included in the licensed service being made at premises within the East of England approved area.

In considering the proposed changes to the volume of locally-made hours, local news requirements and sharing all locally-made programming with other local commercial radio services in the same approved area, we were satisfied in relation to section 106(1A)(a) of the Broadcasting Act 1990 – that the changes would not substantially alter the character of service. This is because the proposals are consistent with our published [localness guidelines](#).

In addition, as a matter of general policy, Ofcom is content to approve Format change requests relating to localness obligations which are consistent with our published localness guidelines, and because we are satisfied that the licensee will continue to meet its licence obligations to provide local material relevant to the listeners in its licence area.

Decision

Ofcom decided to approve this Format change request from KLFM Ltd because we were satisfied in relation to two of the relevant statutory criteria, and for the policy reason outlined above.
