The holder of an analogue local commercial radio licence may apply to Ofcom to have the station's Format amended. Any application should be made using the layout shown on this form, and should be in accordance with Ofcom's published procedures for Format changes.<sup>1</sup>

Under section 106(1A) of the Broadcasting Act 1990 (as amended), Ofcom may consent to a change of a Format only if it is satisfied that *at least* one of the following five statutory criteria is satisfied:

- (a) *that the departure would not substantially alter the character of the service;*
- (b) *that the departure would not narrow the range of programmes available by way of relevant independent radio services to persons living in the area or locality for which the service is licensed to be provided;*
- (c) *that the departure would be conducive to the maintenance or promotion of fair and effective competition*
- (d) *that there is evidence that, amongst persons living in that area or locality, there is a significant demand for, or significant support for, the change that would result from the departure; or*

- (e) *that (i) the departure would result from programmes included in the licensed service ceasing to be made at premises in the area or locality for which the service is provided, but (ii) those programmes would continue to be made wholly or partly at premises within the approved area (as defined in section 314 of the Communications Act 2003 (local content and character of services)).*

Only one of these five criteria need be satisfied in order for Ofcom to consent to the proposed change. However, even if Ofcom is of the opinion that the proposed change satisfies one or more of the statutory criteria, there may be reasons (depending on the particular circumstances of the case) why Ofcom may not consent to the proposed change. The additional criteria to which Ofcom will have regard when exercising this discretion can be found on our website.<sup>2</sup>

Applicants should note that, under section 106ZA of the same Act (as amended), a proposed change that *does not* satisfy the first or last of these criteria (i.e. a change that Ofcom considers *would* or *could* substantially alter the character of the service, or does not relate to the origin of locally-made programmes) must, if it is to be considered further under any of the other three criteria, be consulted upon.

In the event that Ofcom receives a request for Format change and considers that criterion (a) or (e) is *not* satisfied, it will seek confirmation from the applicant as to whether it wishes to proceed with the request (and, if so, whether it wishes to amend or replace its submission in light of the necessity to make it public).#

**Please set out the statutory criterion, or criteria, set out in section 106(1A) of the Broadcasting Act 1990 that you believe is/are satisfied in relation to this Format change request, and the reasons for this.**

This application is made on the basis of sections (a), (b) and (e)

**Please provide any additional information and/or evidence in support of the proposed change(s) below. In particular, the applicant may wish to outline how they see that the proposed change fits within Ofcom's published Format change request policy<sup>3</sup> and also Ofcom's Localness guidance, which includes our co-location and programme sharing policy.<sup>4</sup>**

The requested change for programme sharing is linked to and driven by requests made by Nation Radio Investments Limited for Your Radio (Dumbarton) and Your Radio (Helensburgh).

Changes to studio location, locally made hours and local hours are consistent with current Ofcom localness guidelines.

# Ofcom may approve a change under any of criteria (b) to (d) without consultation, or after a consultation of less than 28 days, if Ofcom considers that to hold a consultation at all, or for 28 days or more, would result in a delay that would be likely to prejudice the interests of the licensee. Ofcom may also remove for the purposes of consultation any confidential information submitted by the licensee.

We require the information requested in this form in order to carry out our licensing duties under the Broadcasting Act 1990, Broadcasting Act 1996 and Communications Act 2003. Please see Ofcom's General Privacy Statement [www.ofcom.org.uk/about-ofcom/foi-dp/general-privacy-statement](http://www.ofcom.org.uk/about-ofcom/foi-dp/general-privacy-statement) for further information about how Ofcom handles your personal information and your corresponding rights

# Ofcom notes on the request

## Statutory requirements

This request relates to the FM licence for West Central Scotland held by Nation Radio Scotland Limited, currently broadcasting as ‘Nation Radio Scotland.’

Every FM local commercial radio station is required to broadcast a service which complies with a defined ‘character of service’, and also a certain amount of locally-made programming and local news. These requirements are specified in its Format. Locally-made programmes are those made within a station’s licensed area or, where Ofcom has approved a wider area relating to that station, that ‘approved area.’

Nation Radio Scotland Limited has requested the following changes to the Format of the West Central Scotland licence:

- To reduce the required number of locally-made programming hours on weekday daytimes from 16 to three, and from 12 to none on weekend days.
- To produce locally-made programming anywhere within the approved area of the South of Scotland.
- To share all locally-made programming with the local commercial radio licences for Helensburgh (AL100675) and Dumbarton (AL102937).

These proposed changes would change the character of service as set out in the Format of the licence, and accordingly can be agreed only if Ofcom is satisfied in regard to one of the statutory criteria set out in section 106(1A) of the Broadcasting Act 1990 (as set out in the request, above).

If we are satisfied in relation to one of the statutory criteria, we are then able to decide whether or not to approve the request, taking account of our published policy criteria.

## Assessment

In considering the proposed changes to the volume of locally-made hours and the request to share all locally-made programming with two other local commercial radio services in the same approved area, we were satisfied in relation to section 106(1A)(a) of the Broadcasting Act 1990 – that the changes would not substantially alter the character of service. This is because the proposals are consistent with our published [localness guidelines](#).

With regard to the request to broadcast locally-made programming from anywhere within the approved area of the South of Scotland, Ofcom was satisfied in relation to section 106(1A)(e) of the Broadcasting Act 1990, on the basis that the change requested, if approved, would result in programmes included in the licensed service being made at premises within the South of Scotland approved area.

In addition, as a matter of general policy, Ofcom is content to approve Format change requests relating to localness obligations which are consistent with our published localness guidelines, and because we are satisfied that the licensee will continue to meet its licence obligations to deliver the ‘Character of Service’ specified in the licence and provide local material relevant to the listeners in its licence area.

## Decision

Ofcom decided to approve this Format change request from Nation Radio Scotland Limited because we were satisfied in relation to two of the relevant statutory criteria, and for the policy reason outlined above.
