1. Overview

You should complete this form if you are applying for a community digital sound programme licence (“C-DSP”). You can find further information about C-DSP services in the [guidance notes for licensees and applicants](#).

This application form is divided into two parts – **Part A** (which we will publish on our website) and **Part B** (which will be kept confidential). This document constitutes Part A; [Part B of the application form](#) is available on our website.

If you encounter any issues using these forms, please contact broadcast.licensing@ofcom.org.uk.

The purpose of this form

- 1.1 You should complete this form if you are applying for a Community Digital Sound Programme (C-DSP) licence.
- 1.2 A digital sound programme service intended for broadcast by means of a local or small-scale radio multiplex service requires either a C-DSP licence or a local DSP licence. Ofcom’s published guidance notes set out some of the key issues that potential applicants need to consider in deciding which type of licence is suitable for them. In summary, C-DSP services are not run for financial gain and are required to provide social gain. C-DSP licences therefore include strict conditions to ensure that happens, and provide less flexibility than a local DSP licence. However, they do provide access to capacity that small-scale radio multiplex service providers are required to reserve solely for C-DSP services.
- 1.3 A C-DSP licence will be required even if the same programme service is also provided on any other platforms (e.g. FM, satellite), as separate licences are required for those.
- 1.4 As noted above, small-scale radio multiplex services will have reserved capacity for C-DSP services. Issue of a C-DSP licence does not, however, guarantee carriage on a small-scale (or local) radio multiplex service. That is a matter for agreement between the C-DSP licensee and the multiplex service provider, and there may be more C-DSP licences issued in a locality than there are reserved slots on the small-scale radio multiplex service. Note that a C-DSP service does not necessarily have to broadcast using reserved capacity. It can use unreserved capacity on a small-scale radio multiplex service or capacity on a local radio multiplex service, again subject to agreement with the multiplex service provider.
- 1.5 An application for a C-DSP licence will be accepted only once Ofcom has advertised the licence for the small-scale radio multiplex service upon which the proposed C-DSP service is intended to be provided. There is no closing-date by which an application for a C-DSP licence must be submitted (i.e. it can be submitted at any time after the licence for the relevant small-scale radio multiplex licence has been advertised).
- 1.6 You can find further information about how to determine if a service requires a C-DSP licence in Section 2 of the [guidance notes for applicants and licensees](#).

Provision of information

- 1.7 Ofcom requires complete and accurate information to assess applications. This is so that we can assess your application against statutory criteria, consider whether those involved in the body applying for a licence are ‘fit and proper’ to hold a licence, and determine whether their involvement with other organisations disqualifies them from participation in a licence.
- 1.8 It is an offence under the Broadcasting Act 1996 (as amended) to provide false information or withhold relevant information during the application process, and may be grounds for revocation of a licence subsequently granted.

Publication of information about applications and licensed services

- 1.9 Information provided in **Part A** of the application form will typically be published by Ofcom in our Monthly Radio Update publication the month following the submission of your application. This may take longer if the application is received late in the month. Information provided in **Part B** will not be published.
- 1.10 In submitting this application you agree that, should a licence be granted, Ofcom may publish contact details for the licensee (specified in Section 2 of Part B of the application form), which may include personal data, on the Ofcom website and/or in other relevant publications. If you have any questions about the information that we publish, or there are any changes to this information, you should contact the Broadcast Licensing team by email (broadcast.licensing@ofcom.org.uk).
- 1.11 Ofcom considers issued C-DSP licences to be public documents and copies of licences will be made available to third parties on request albeit, other than the Key Commitments which are tailored to the service, C-DSP licences are standard form documents. A brief description of the licensed service will be published on the Ofcom website, along with the Key Commitments which form part of the licence.
- 1.12 Ofcom publishes a [monthly radio licensing update](#) which lists new services licensed, new applications, licences revoked, licence transfers, and changes to licensed services during the past month.

Data protection

- 1.13 We require the information requested in this form in order to carry out our licensing duties under the Broadcasting Act 1990, Broadcasting Act 1996 and Communications Act 2003. Please see Ofcom’s [General Privacy Statement](#) for further information about how Ofcom handles your personal information and your corresponding rights.

Keeping up to date with broadcasting matters

- 1.14 We strongly recommend that the appropriate person at the applicant body signs up to receive Ofcom's regular email updates on broadcasting matters including notification when the Broadcast and On Demand Bulletin is published.
- 1.15 To sign up to receive these communications, you must visit [the email updates area of our website](#) and select 'Broadcasting.'

About this section

In this section we are asking you for details about the applicant company. This must be a body corporate which is not profit distributing.

It also asks questions which are relevant to our assessment of the applicant's fitness and propriety to hold a C-DSP licence.

3. The proposed service

About this section

This section asks you to describe your proposed service, including the Key Commitments you propose to include in your licence. This includes your service name, multiplex name and character of service, in addition to standard commitments that all C-DSP licensees need to abide by. Holders of an existing analogue community radio licence to be a simulcast on the proposed C-DSP service can replicate the existing analogue key commitments as it is our expectation that the key commitments for simulcast services are to be in keeping with one another. If a licence is granted, the information you provide in this section will be used to form the basis of the annex to your licence. You will only be authorised to broadcast what is detailed in the annex of the licence.

In this section, you will also need to set out how your service will provide social gain, community participation and how you will be accountable to the target community. This is in line with statutory requirements for the granting of C-DSP licences. **The information provided in this section is also the basis on which decisions are made.**

If you hold, or intend to hold, multiple C-DSP licences, the answers given in this section and the intended delivery of your Key Commitments must apply to the locality in which your proposed service will broadcast (as set out in the Draft Key Commitments in this application form).
