3. Ability to establish the proposed service	5
4. Involvement of C-DSP providers; demand or support from programme providers	16
5. Fair and effective competition	18
6. Declaration	19

1. Overview

You should complete this form if you are applying for a small-scale radio multiplex licence. You can find further information about small-scale radio multiplex services in the [Guidance notes for applicants and licensees](#).

This application form is divided into two parts – **Part A** (which we will publish on our website) and **Part B** (which will be kept confidential). This document constitutes Part A; [Part B of the application form](#) is available on our website.

If you encounter any issues using these forms, please contact broadcast.licensing@ofcom.org.uk.

The purpose of this form

- 1.1 You should complete this form if you are applying for a licence to provide a small-scale radio multiplex service (a ‘small-scale radio multiplex licence’). A small-scale radio multiplex service is the means by which DAB digital radio stations (‘digital sound programme services’) are broadcast, and can transmit around ten stereo digital sound programme services (or a significantly higher number if the DAB+ standard is utilised). The application form is divided into two parts – **Part A** (which we will publish on our website) and **Part B** (which will be kept confidential). This document constitutes Part A; [Part B of the application form](#) is available on our website.
- 1.2 Small-scale radio multiplex licences are awarded by Ofcom in a competitive process. Applications are judged against specified criteria, and Ofcom awards the licence to the applicant which it considers best meets the criteria.
- 1.3 You can find more information about small-scale radio multiplex licences in Ofcom’s published [guidance notes](#) for licence applicants and licensees. This document also includes detailed instructions on how to complete the application form, and information on the next steps in the application process. Please read this guidance and the ‘frequently asked questions’ carefully before completing both parts of the application form.

Provision of information

- 1.4 Ofcom requires complete and accurate information to assess applications. In particular, we must be satisfied that those applying for a licence are ‘fit and proper’ to hold a licence and are not disqualified from participation in a licence.
- 1.5 It is an offence under the Broadcasting Act 1996 (as amended) to provide false information or withhold relevant information during the application process, and may be grounds for revocation of a licence subsequently granted.

Publication of applications

- 1.6 Part A of the application form (i.e. this document) will be published by Ofcom on our website as soon as practicable following the closing-date for applications. Part B of the

application form will remain confidential. Non-confidential responses to any clarification or amplifications will also be published on the Ofcom website, alongside the Part A application form. Ofcom may take into account any comments received from the public, which can be made to it with respect to Part A of the application submitted.

- 1.7 In submitting Part A of the application, you agree that Ofcom may publish contact details for the licensee (as required on the cover of this application form), which may include personal data, on the Ofcom website and/or in other relevant publications. If you have any questions about the information we publish, or there are any changes to this information, you should contact the Broadcast Licensing team by email (broadcast.licensing@ofcom.org.uk).
- 1.8 Ofcom considers issued small-scale radio multiplex licences to be public documents and copies of licences will be made available to third parties on request, noting that personal data apart from the name of the licensee may be redacted.

Data protection

- 1.9 We require the information requested in this form in order to carry out our licensing duties under the Broadcasting Act 1990, Broadcasting Act 1996 and Communications Act 2003. Please see Ofcom's [General Privacy Statement](#) for further information about how Ofcom handles your personal information and your corresponding rights.

Keeping up to date with broadcasting matters

- 1.10 We strongly recommend that you sign up to receive Ofcom's regular email updates on broadcasting matters including notification when the Broadcast Bulletin is published.
- 1.11 Ofcom publishes a [monthly radio licensing update](#) which lists new services licensed, licences revoked, licence transfers, and changes to licensed services during the past month.
- 1.12 To sign up to receive these communications, please visit <https://www.ofcom.org.uk/about-ofcom/latest/email-updates> and select 'Broadcasting'.

2. Extent of proposed coverage area

About this section

Under section 51(2)(a) of the 1996 Act, we are required to consider the extent of the coverage area an applicant proposes to achieve within the area which has been advertised. This section therefore asks you to describe the coverage you are proposing to achieve. Further questions on the detailed technical arrangements for the proposed service, including questions on the transmission site(s) that you intend to use and your plans for how the multiplexing and distribution of your service will be arranged are contained in Part B of the application form.

Before completing this section of the form, you should read carefully the notes on 'Extent of proposed coverage area' in Section 4 of Ofcom's [guidance notes for licence applicants and licensees](#).

- 2.1 Provide a summary, fully consistent with the more detailed information about transmission sites supplied separately in Part B, of the coverage area proposed to be achieved by your technical plan. This should include a description of the target area you are seeking to serve within the advertised licence area, and also any areas you are aiming to serve outside the advertised licence area for this small-scale radio multiplex service. (You may refer to your coverage prediction in the response you provide):

We are looking to achieve very good outdoor coverage and good indoor coverage across as much of the licence area as possible.

We achieve this with the use of four transmitters.

- Kenton – to serve the north
- Cale Cross House – to serve Newcastle city centre and Gateshead
- Jedburgh Court – to serve the south east
- Roseberry House – to serve the south west

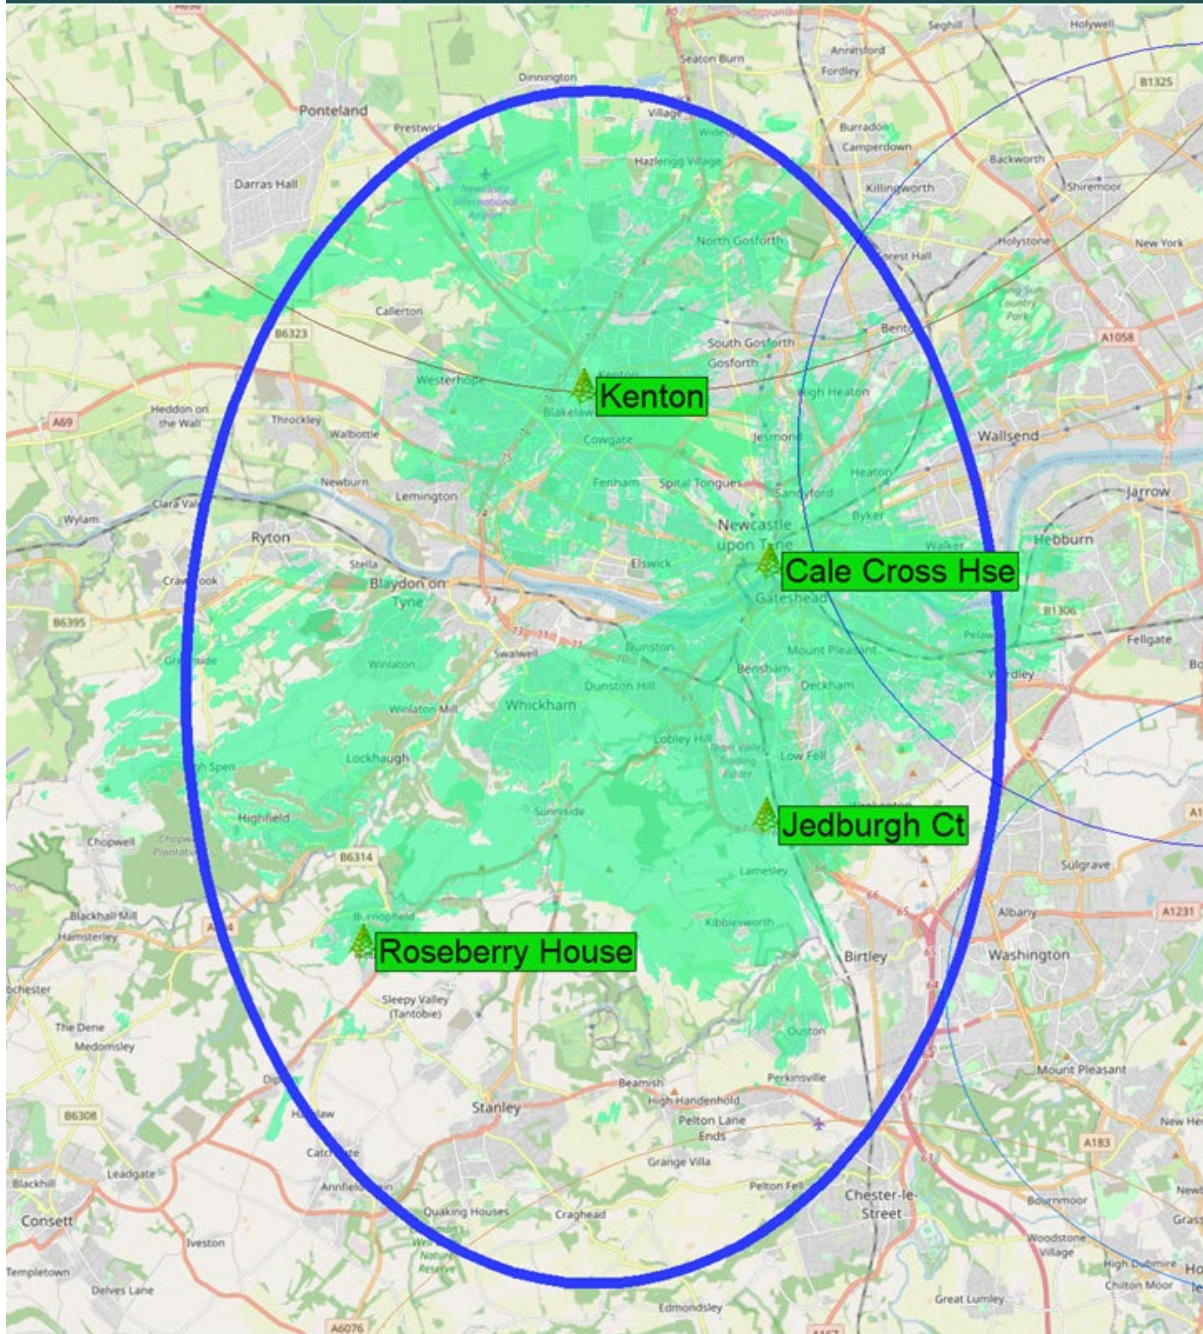

The transmission network has been designed to limit overspill outside of the polygon as much as possible.

The sites and technical parameters we have selected have taken in to account ACI and interference with co-channel multiplexes.

- 2.2 Please provide a coverage prediction map for the whole transmitter network you are proposing to build within 18 months if you are awarded a licence. The map should show the 63 dB μ V/m field strength and the advertised small-scale DAB licence area contour. [Small-scale DAB licence areas in GIS format](#) are available on the Ofcom website.

**UK DAB
Networks**
ukdab.net

**Newcastle & Gateshead 4TX Coverage - 63 dB μ V/m
Indoor coverage prediction**

2.3 Please provide the following details of the prediction software used for your coverage assessments:

Provide the name and version of the prediction tool used.	ATDI HTZ Communications x64
Detail the terrain model used by the software and its resolution.	DTM: DEFRA 1m and 2m resolution (DSM+DTM)
Detail the ground cover (clutter) data used by the software and its resolution.	Buildings: DEFRA (automatic extraction – slope algorithm - performed at 2 m resolution then resampled) Vegetation (park, wood, forest) and Hydro from Corine Land Cover 2018 and Urban Atlas 2018 (European Environment Agency) Roads and railways from Open Street Map (2019)
What propagation algorithm has been used?	Model pre-set: Fresnel Diffraction geometry: Deygout 94 Subpath attenuation: Coarse Integration FZ fraction: 0.8 Earth radius (sea and land): 28,500km
Where multiple sites are proposed, describe what methodology has been used to assess the network (SFN) gain	Power Sum
If these predictions have not used Ofcom-provided population data, state what population data has been used and its source.	Ofcom data used
Have your predictions been generated by a commercial organisation? If so, by whom?	UK DAB Networks

3. Ability to establish the proposed service

About this section

In Section 3, we are asking questions about the applicant company, its financial and business plan, the relevant expertise and experience of those who will be involved in providing the small-scale radio multiplex service, and the timetable for coverage roll-out. The answers to these questions will enable Ofcom to assess the application under section 51(2)(c) of the 1996 Act. Additional information will be submitted in Part B.

In the first part of this section we are asking for details of the applicant's officers (directors or, in the case of LLPs, designated members), its shareholders and participants. Where applicable, we are also asking for details of the officers of the applicant's parent and associated companies or LLPs etc.

If any of the individuals named in your responses are known by more than one name/version of their name, all names must be provided.

Certain persons are disqualified from holding a small-scale radio multiplex licence. This section asks the questions which enable us to consider this for those types of disqualification which apply specifically to bodies corporate. It also asks questions which are relevant to our assessment of the applicant's fitness and properness to hold a small-scale radio multiplex licence.

The response boxes and tables should be expanded or repeated where necessary, or provided in a separate annex.

'Officerships' in this section refers to: directorships of bodies corporate, designated memberships of LLPs, or membership of a governing body of an unincorporated association (including partnerships).

The remaining questions in Section 3 relate to the applicant's financial and business plan, the expertise and experience of those involved, and the planned timetable for launching the proposed multiplex service.

Applicant's details

3.1 Name of applicant (i.e. the body corporate that will hold the licence):

Boom Radio DAB Ltd

3.2 Company registration number stated on Companies House (if applicable):

12978290

3.3 For UK registered companies, the address of the applicant's registered office stated on Companies House. For non-UK registered companies, the principal office address:

43 Clarendon Square,
Leamington Spa,
Warwickshire
CV32 5QZ

- 3.4 If a UK registered company, is the **current** Memorandum and Articles of Association document available on the Companies House website?

Yes

If no, please submit the up to date document and indicate you have done so in the checklist in Section 7 of Part B.

- 3.5 Contact details of the individual duly authorised by the applicant for the purposes of making this application. This individual should be the company secretary or a director.

Full name	Phil Riley
Job title	CEO
Address	43 Clarendon Square, Leamington Spa, Warwickshire CV32 5QZ
Telephone	0115 838 7428 (please use mobile number below)
Mobile phone	Mobile number is included in confidential appendix B
Email	philipstephenriley@gmail.com

Ownership and control of company which will hold the licence

Details of officers, participants and shareholders of the applicant

- 3.6 Please provide the following details for each director or designated member of the applicant:

Small-scale radio multiplex licence: application form (Part A)

Full name of individual	Correspondence address ¹	Country of residence	Other officerships held (and nature of the business concerned)	Other employment
Philip Stephen Riley	43 Clarendon Square, Leamington Spa, Warwickshire CV32 5QZ	England	Director & CEO, Boom Radio Ltd – radio broadcasting company	Chairman, Koala TV Ltd – TV Commercial production company
Antony Thomas Lloyd (David Lloyd)	43 Clarendon Square, Leamington Spa, Warwickshire CV32 5QZ	England	Director, Boom Radio Ltd – radio broadcasting company; Chairman Notts TV Ltd.	Broadcast consultant
Jason Scott Bryant	St Hilary Transmitter, nr St Hilary, Cowbridge. Vale of Glamorgan. CF71 7DP	England	Please see confidential appendix B	Executive Chairman, Nation Broadcasting

3.7 Please identify any entities with which the applicant is affiliated:

(If this question is not applicable to the applicant please respond “N/A” in the table.)

Full name of the entity	Address
Boom Radio Ltd (80% shareholder)	43, Clarendon Square, Leamington Spa, Warwickshire, CV32 5QZ
Nation Broadcasting Ltd (20% shareholder)	St Hilary Transmitter, nr St Hilary, Cowbridge. Vale of Glamorgan. CF71 7DP
We have included in Appendix A to the confidential section the entire corporate structure of the applicant and the applicant participants and in Appendix B the personal equity shareholdings and Officerships of all Directors of the applicant company and for directors and participants of affiliated companies.	

¹ This should be the same address as is held and published by Companies House.

Small-scale radio multiplex licence: application form (Part A)

3.8 Complete the following table, expanding it if necessary, to list all bodies corporate which are controlled by the applicant, and their affiliates:

Full name of entity	Address	Affiliates
No bodies are controlled by the applicant		
We have included in Appendix A to the confidential section the entire corporate structure of the applicant and the applicant participants.		

3.9 Complete the following table, expanding it if necessary, to list all persons who control the applicant, together with their affiliates. If any persons or bodies control the applicant jointly because they act together in concert (e.g. because of a shareholder's agreement), each such person must be identified here:

Full name of individual or body	Address	Affiliates
Boom Radio Ltd	43 Clarendon Square, Leamington Spa, Warwickshire CV32 5QX	None

3.10 Complete the following table, expanding it if necessary, to list all officerships in other bodies that are held by any individual listed in response to question 3.9, and any affiliates of those bodies:

Full name of individual	Name of body in which officership held	Affiliates of that body
We have included in Appendix A to the confidential section the entire corporate structure of Nation Broadcasting (a minority shareholder) and in Appendix B the personal equity shareholdings and Officerships of all Directors of the applicant company and for directors and participants of affiliated companies		

3.11 Complete the following table, expanding it if necessary, to list all bodies corporate which are controlled by any body corporate listed in response to question 3.9, and their affiliates:

Full name of body corporate listed in 3.9	Body corporate controlled	Affiliates of body corporate controlled
We have included in Appendix A to the confidential section the entire corporate structure of Nation Broadcasting (a minority shareholder) and in Appendix B the personal equity shareholdings and Officerships of all Directors of the applicant company and for directors and participants of affiliated companies		

3.12 In relation to each body corporate identified in response to question 3.9, complete the following table, expanding it if necessary, to list all bodies which hold or are beneficially entitled to shares, or who possess voting powers, amounting to more than 5% in the body corporate concerned (“participants”). You may, but are not required to, exclude from this table any bodies listed in response to question 3.9. If you are unable to provide a complete answer to this question in relation to beneficial owners, please state whether you have any reason to suspect the existence of any beneficial owners.

Name of body corporate	Boom Radio DAB Limited			
Full name of >5% participant	Number of shares	Total investment (£s)	Total investment (%)	% of voting rights
Boom Radio Limited	80	80	80	80
Nation Broadcasting Limited	20	20	20	20
Comments				

Name of body corporate identified in response to question 3.9	Boom Radio Limited			
Full name of >5% participant	Number of shares	Total investment (£s)	Total investment (%)	% of voting rights
Philip Stephen Riley	85,000	£85,000	22.36%	22.36%
Anthony Thomas Lloyd	50,000	£50,000	13.15%	13.15%
Paul Rowbotham	30,000	£30,000	7.89%	7.89%
Jason Scott Bryant	30,000	£30,000	7.89%	7.89%
David Elms	29,900	£29,900	7.86%	7.86%
Comments				
A complete list of shareholders is included in Confidential Appendix B				

--

Name of body corporate identified in response to question 3.9	Nation Broadcasting Limited			
Full name of >5% participant	Number of shares	Total investment (£s)	Total investment (%)	% of voting rights
Jason Scott Bryant	5100	51	51	51
Corrina Dawn Bryant	4900	49	49	49
Comments				

Involvement of the applicant in specified activities

3.13 Please state below whether the applicant, or any of the directors, shareholders or other individuals named above, including their associates (i.e. directors of their associates and other group companies), is, or is involved in, any of the below, and the extent of that interest.

Activity/involvement	Yes or No	Please state who is involved; the name of the body/individual/agency they are involved with; and the extent of their involvement
A local authority	No	
A body whose objects are wholly or mainly of a political nature, or which is affiliated to such a body	No	

A body whose objects are wholly or mainly of a religious nature; ²	No	
An individual who is an officer of a body falling within (b) or (c);	No	
A body corporate which is an associate (as defined in paragraphs 1(1) and 1(1A) of Part I of Schedule 2 to the Broadcasting Act 1990) of a body falling within (b) or (c);	No	
An advertising agency or an associate of an advertising agency	No	

Details of applications, licences and sanctions

3.14 Is the applicant a current licensee of Ofcom?

No (delete as appropriate).

If yes, please provide the licence details expanding the table if necessary:

Licence number	Name of multiplex
-	-

3.15 Has the applicant held an Ofcom broadcasting licence before?

No (delete as appropriate).

Licence number	Name of service or multiplex
-	-

² Please refer to Sections 3 to 5 of [Ofcom's religious guidance note](#) for details on how we determine the eligibility of religious bodies to hold certain broadcasting licences.

Small-scale radio multiplex licence: application form (Part A)

3.16 Has anyone involved in the proposed service, held an Ofcom broadcasting licence or been involved in an Ofcom-licensed broadcast service before?

Yes (delete as appropriate).

If yes, please provide the details expanding the table if necessary:

Dates licence was held or dates of involvement	Licence number (if known)	Name of service or multiplex
1990-2019	Various	Phil Riley was: MD Radio Aire (1990-1994), MD/CEO of Chrysalis Radio (1994-2007), CEO Orion Media (2009-2015), Director, Celador Radio (2017-2019).
1980-2020	Various	David Lloyd was involved in Midlands Radio (1980-91); Lincs FM (91-94); Border TV/Radio (98-2000); Chrysalis Radio (2000-2007); Virgin Radio (2007-2009); Orion Media (2009-2015); and is now a radio consultant working with several licensees. He is the Chairman of Notts TV, former chair of the local TV network; and personally, a DSPS licensee for Serenade Radio.
A full list of licenses connected to Nation Broadcasting is enclosed in confidential appendix C		

3.17 Does the applicant control an existing Ofcom licensee?

No (delete as appropriate).

If yes, please provide the licence details expanding the table if necessary:

Licence number	Name of service or multiplex
N/A	

3.18 Is the applicant controlled by an existing licensee or by any person who is connected (within the meaning of Schedule 2 to the Broadcasting Act 1990) with an existing licensee (i.e. as a “participant”)?

Yes (delete as appropriate).

Small-scale radio multiplex licence: application form (Part A)

If yes, please provide the following information, expanding the table if necessary:

Licence number	Name of service or multiplex
TBC – when service launches	Boom Radio Ltd will control the applicant. Boom Radio is submitting a DSPS licence in anticipation of a launch early next year and this will be licensed shortly.

- 3.19 Has the applicant made any other application to Ofcom (or its predecessor broadcast regulators – the Independent Television Commission and the Radio Authority) for any licence which has since been surrendered by the licensee or revoked by Ofcom (or one of its predecessor regulators)?

No (delete as appropriate).

If yes, please provide the following information, expanding the table if necessary:

Licence number	Name of service or multiplex
N/A	

- 3.20 Is the applicant subject to any current or pending investigation by any statutory regulatory or government body in the United Kingdom or abroad in respect of any broadcast-related matter?

No (delete as appropriate).

If yes, please provide the following details expanding the table if necessary:

Licence number (or equivalent)	Name of service or multiplex	Details of the investigation
N/A		

- 3.21 Has the applicant – or any person(s) controlling the applicant – ever been subject to a statutory sanction for contravening a condition of a broadcasting licence in the UK or any other jurisdiction?

No (delete as appropriate).

If yes, please provide the following details relating to each sanction expanding the table if necessary:

Licence number (or equivalent)	Name of service or multiplex	Nature of the breach	Sanction imposed	Date sanction imposed
N/A				

- 3.22 In relation to any of the directors, shareholders or other individuals named in this application, please provide any information which you think may be a relevant consideration for Ofcom in determining whether or not the applicant is fit and proper to hold a Broadcasting Act licence.

If you have no information to provide, please respond “N/A”.

N/A

- 3.23 Has the applicant – or any person(s) controlling the applicant – ever been convicted of an unlicensed broadcasting offence?

No (delete as appropriate).

If yes, please provide the following details:

Full name	Date of conviction/action (dd/mm/yy)	Penalty
N/A		

Financial and business plan

- 3.24 Explain how the applicant considers it will be able to establish its proposed service. This should include an explanation of the costs required to establish the multiplex service, and how these costs will be met:

The applicant is a newly established company owned and run by experienced operators of DAB and SSDAB services.

Boom Radio Ltd is the majority shareholder in the applicant. Boom has raised sufficient share capital to fund its initial start-up costs. Boom’s shareholders include a number of successful media professionals and entrepreneurs. They are committed to providing the necessary funding to see the business to profitability and beyond.

The management of the multiplex, including its technical start-up and liaison with C-DSPs and DSPs will be led by UK DAB Networks, a new consultancy and DAB operations company owned by Ash Elford. Ash has established an enviable reputation as one of the pioneers of SSDAB. Ash will be responsible for the day-to-day management and strategy of the multiplex. He has established UK DAB Networks to provide an effective management and ownership platform for SSDAB operations.

Nation Broadcasting is a minority shareholder in Boom Radio DAB Ltd. Nation is the UK’s third largest operator of local commercial radio licences and has interests in a number of local DAB multiplexes across the UK. It has considerable DAB launch and operating

experience, including in SSDAB, having owned and operated the Glasgow trial multiplex since 2018.

The applicant will work closely with its service providers in community radio/ C-DSP services to promote the launch of SSDAB in the area.

Our collective experience gives us full knowledge of the costs and risks associated with the launch and operation of the multiplex. Nation Broadcasting's credit and finance function will provide all finance and back-office functions to the applicant through UK DAB Networks Ltd. This will free us to focus on providing an excellent service to listeners and its service providers.

Capital requirements of transmitter and associated equipment will be provided through loans from our majority shareholder, Boom Radio Ltd. We will contract with the transmitter site owners for rental. Multiplexing software will be sourced from the world's leading multiplex software firm Factum Radioscape, a majority Nation owned company. Day to day operating costs will be met through renting capacity on the multiplex to third parties.

We propose to charge local community operators who hold a C-DSP licence on a de minimis basis. This is because we know that these services are run as not for profit operations and we want to help them keep costs down. Given our investment in transmission, we are confident that all community radio operators and putative C-DSP operators will be keen to take advantage of this offer.

We will charge third party operators a monthly fee.

Any shortfall/losses will be borne by loans from our majority shareholder Boom Radio Ltd, though our projections show that we will operate the Newcastle SSDAB licence at an operating profit based on strong demand for capacity

3.25 Detail the sources of finance that will be used to fund the multiplex service, under the following headings:

- a) Share capital
- b) Loan stock
- c) Leasing/HP facilities (capital value) –
- d) Bank overdraft
- e) Grants and donations
- f) Other (please specify)

This question has been answered in confidential appendix M

- 3.26 Provide evidence that sufficient funds are available to each investing shareholder to cover their proposed investment. For incorporated investing shareholders, provide a copy of the most recent statutory accounts.

This question has been answered in confidential appendix M.

Accounts for Nation Broadcasting (incorporated investing shareholder) are contained in confidential appendix G.

- 3.27 All of the funding identified above should be confirmed. If any funding has not been confirmed, or if there are any pre-conditions before the funding is released which have not yet been met, provide an explanation of what needs to be done, the dates by which it needs to be carried out, and any steps the applicant needs to take to ensure the funding is confirmed and/or released.

All funding is confirmed.

Relevant expertise and experience

- 3.28 Please provide details of who will be responsible for the day-to-day general management of the multiplex service (for example, dealing with programme service providers and contractual matters). Please also briefly state their previous relevant experience. (Note that any individuals or contractors who cannot be identified at this stage can instead be included in the confidential section (Part B) of the application form.)

We have access to a number of individuals with significant DAB experience. This expertise will ensure a smooth, professional launch and successful ongoing operation of the multiplex.

Phil Riley knows the North East well – he spearheaded the successful licence award and launch of Galaxy Radio in the region. In his role as CEO of Chrysalis Radio, Phil was instrumental in the creation and development of MXR, the regional multiplex company, from 1999-2007. MXR was active Across South Wales, The West Midlands, Yorkshire, The North West and North East, and pioneered the development of services across multiple regions, as well as creating new, innovative services such as the rolling news service DNN. Phil Chaired MXR for eight years, and MXR was consistently profitable.

Day-to-day management of the multiplex will be by Ash Elford, owner of UK DAB Networks Ltd, a new DAB multiplex consultancy, ownership and operating company.

Ash is one of the UK’s pioneers in SSDAB and has overseen the establishment and successful operation of the Portsmouth SSDAB trial. Ash has also been working with our minority shareholder, Nation Broadcasting, for a number of years and has overseen the significant improvement in the reliability, coverage and services on the SSDAB Glasgow trial. Ash was previously engaged in the DAB digital radio team at Arqiva.

Director Jason Bryant has been involved in the development and rollout of DAB in the UK since the launch of the first national multiplex in 1999. He represented the original Talk Radio and Virgin Radio channels on Digital One. He has won and launched a large number of DAB multiplexes – including in London, Scotland and Wales. Jason led Nation Broadcasting’s investment in Factum Radioscape, one of the World’s leading software providers of DAB multiplex software and monitoring systems.

Martin Mumford, Nation’s Managing Director, will oversee the finance and compliance functions for UK DAB Networks Ltd. Martin has longstanding experience in managing successful multiplex businesses.

- 3.29 Please provide details of who will be carrying out the installation and on-going maintenance of your multiplexing / transmitter equipment (or the name of your proposed transmission and multiplex provider if you intend to use a third-party organisation for these services). Please also briefly state their previous relevant experience. (Note that any individuals or contractors who cannot be identified at this stage can instead be included in the confidential section (Part B) of the application form.)

Function	Responsible party	Previous experience
Installation of transmission equipment	Commtronix Ltd	Significant experience of installation of DAB transmission systems for small and large broadcasters
Ongoing maintenance of the transmission equipment	Commtronix Ltd	Significant experience of installation of DAB transmission systems

		for small and large broadcasters
Installation of the Multiplexing equipment	Factum Radioscape Ltd	Significant experience of installation of DAB multiplexing systems for small and large broadcasters.
Day-to-day technical management and maintenance of the multiplexing equipment (if different from response to question 3.28 above)	UK DAB Networks Ltd	Significant experience of managing DAB multiplexes.

Timetable for coverage roll-out

- 3.30 In no more than 250 words, please tell us how soon after licence award you expect your multiplex service to become operational and achieve the coverage you are proposing. Please provide an outline project plan with timeline (e.g. a Gantt chart or similar) showing the high level activities and tasks leading up to the launch of your multiplex service:

Our plans for Newcastle and Gateshead include the provision of four transmission sites. We expect the multiplex to be operational within 12 months of licence award.

Multiplexing and encoding will be done using the Factum Radioscape Enmuxa platform which provides a world leading multiplexing system providing good quality audio on a robust system. The Enmuxa platform is highly flexible and will be ready in ample time before launch.

In addition to the technical requirements, soon after award we will commence the procurement of telecoms and establish transmission contracts with service providers.

A project plan is included in Appendix I.

We are experienced in the establishment of multiplexes from application through to launch and will capitalise on this to ensure a smooth launch of the multiplex.

4. Involvement of C-DSP providers; demand or support from programme providers

About this section

Section 51(2)(ca) of the 1996 Act requires Ofcom to take into account the desirability of awarding a small-scale radio multiplex licence to a body corporate that is providing – or proposing to provide – a C-DSP service in the locality being advertised (or involving such a person as a participant in the licence-holding company).

Section 51(2)(f) of the 1996 Act requires Ofcom to take into account evidence that the applicant has support from providers interested in having their existing or planned programme services carried on the proposed multiplex.

Note that we do not require applicants to provide us with a full-line up of services they intend to provide, or details about the content of those services.

Involvement of C-DSP providers

4.1 Is the applicant body proposing to provide its own C-DSP service on the multiplex?

No (please delete accordingly)

4.2 If the answer to the above question is 'yes', please provide a name and brief details of this proposed service. If the service is already licensed by Ofcom, the licence number should be provided:

N/A

Not applicable

- 4.3 If the answer to the above question is 'no', please provide details of any participant in the applicant body that is proposing to provide a C-DSP service on the multiplex. If the service is already licensed by Ofcom, the licence number should be provided:

N/A

Demand or support from programme providers

- 4.4 Please provide any evidence which has been gathered of support for the provision of the proposed multiplex service among providers or prospective providers of community or local digital sound programme services in the area to be served by the multiplex service:

The Act is clear that it is desirable to provide a platform for C-DSPs. We have made plentiful provision for community radio and services operating under a not-for-profit basis.

We are aware that other community services are participating in other licence applications. However, given our significant proposed investment in transmission and our offer to provide access to the platform at a de minimis rate, we believe that services such as Pride Radio and Nova Radio will accept an offer of carriage from us, should we be successful. For clarity, all C-DSP providers will be offered identical terms for reserved capacity and all existing community services will be offered priority status.

More generally, for DSPS providers, given the involvement through our multiplex manager UK DAB Networks with SSDAB trials in Portsmouth and Glasgow, the publicity and response to our published plans, and the fact that our team is well known and highly regarded in the industry, we have not been surprised to receive substantial interest from putative operators in the area.

Consequently, the SSDAB multiplex will launch with a strong line up of commercial programme services and we have submitted our preferred line up of services confidentially to Ofcom, based on a number of factors including track record, variety and localness.

Full details about contact with prospective service providers is included in Confidential Appendix K.

5. Fair and effective competition

About this section

Section 51(2)(g) of the 1996 Act requires Ofcom to assess whether, in contracting or offering to contract with programme service providers, the applicant has acted in a manner calculated to ensure fair and effective competition in the provision of community and local digital sound programme services.

In assessing applications, we need to have confidence that the prospective small-scale radio multiplex licensee has approached a wide range of potential service providers. Negotiations that have taken place between the applicant and potential service providers need to have been demonstrably fair, and the terms of any contract for service provision must be fair and non-discriminatory.

Applicants should note there are two further questions relating to fair and effective competition in Part B of the application form.

- 5.1 Please detail the measures that have already been taken, and will be taken before and during the licence period, to demonstrate that, in contracting or offering to contract with programme services providers, the applicant has acted in a manner calculated to ensure fair and effective competition in the provision of such services:

In preparation for our licence application, have made several announcements to the trade press through 2020 (through our partners Nation Broadcasting and UK DAB Networks) inviting interested broadcasters to talk to us. We have also invited broadcasters that we have relationships elsewhere with to join our application.

As a minimum we will:

- Provide a website and social media channels regularly inviting interested broadcasters to contact us
- Publish a ratecard for multiplex capacity
- Provide capacity at a de minimis rate to C-DSP services, making use of reserved capacity
- Work to ensure that multiplex is as fully utilised as possible
- Allocate capacity in a way that promotes the greatest diversity of formats and providers in the event of demand for multiplex capacity exceeding supply.

6. Declaration

About this section

This form must be submitted by the body corporate which will hold the licence. The declaration must be certified by a company director or the company secretary, and covers all information provided by in the applicant in both Part A and Part B of the application form. The declaration must also be dated.

- a) I hereby apply to Ofcom for the grant of a licence for the small-scale radio multiplex licence described above and declare that the information given in this application form is, to the best of my knowledge and belief, correct.
- b) I further declare and warrant:
 - i) that the applicant is not a disqualified person within the meaning of that expression as defined in Part 2 of Schedule 2 to the Broadcasting Act 1990, as amended, or as a result of a disqualification order under section 145 of the Broadcasting Act 1996;
 - ii) that having made all reasonable enquiries neither the applicant nor any person controlling the applicant, as result of the grant to me of the licence, breach any requirement of Schedule 14 to the Communications Act 2003 with regard to the accumulation of interests in broadcasting services or to the restrictions on cross-media interests;
 - iii) that the applicant is not disqualified by virtue of the provisions of section 143 (5) of the Broadcasting Act 1996 in relation to political objects and the provisions of section 144 (3) of the Broadcasting Act 1996 in relation to the provision of false information or through the withholding of information with the intention of misleading Ofcom; and
 - iv) that no director or person concerned directly or indirectly in the management of the Licensee is the subject to a disqualification order as defined by section 145 (1) of the Broadcasting Act 1996.
- c) I understand that Ofcom reserves the right to revoke the licence (if granted) if at any time any material statement made to Ofcom is found to be false and to have been by the applicant or any member or officer thereof knowing it to be false. I also understand that under sections 144 and 145 of the Broadcasting Act 1996, the provision of false information could incur a criminal conviction and a disqualification from the holding of a Broadcasting Act licence. I further certify that, to the best of my knowledge, any matters which might influence Ofcom's judgement as to whether the directors and substantial shareholders involved in this application are fit and proper persons to participate in a radio licence, have been made known to Ofcom.

Full name (BLOCK CAPITALS) of the person authorised to make the application on behalf of the applicant:

PHILIP STEPHEN RILEY

Date of application:

23 November 2020

I am authorised to make this application on behalf of the applicant in my capacity as (delete as appropriate):

Company Director.

A handwritten signature in black ink, appearing to read 'P. Riley', with a large, sweeping flourish at the end.

You now need to complete the **confidential section (Part B)** of the application form.
