1. Overview

The purpose of this form

- 1.1 You should complete this form if you are applying for a licence to provide a small-scale radio multiplex service (a ‘small-scale radio multiplex licence’). A small-scale radio multiplex service is the means by which DAB digital radio stations (‘digital sound programme services’) are broadcast, and can transmit around ten stereo digital sound programme services (or a significantly higher number if the DAB+ standard is utilised). The application form is divided into two parts – **Part A** (which we will publish on our website) and **Part B** (which will be kept confidential). This document constitutes Part A; [Part B of the application form](#) is available separately.
- 1.2 Small-scale radio multiplex licences are awarded by Ofcom in a competitive process. Applications are judged against specified criteria, and Ofcom awards the licence to the applicant which it considers best meets the criteria.

How to complete the form

- 1.3 There are detailed instructions on how to complete this form, and information on the next steps in the application process, in our [guidance notes](#) for licence applicants and licensees. Please read this guidance and the frequently asked questions carefully before completing this form.
- 1.4 If you still have a query having read the guidance and FAQ, you can contact Ofcom’s Broadcast Licensing team by email (smallscaledab@ofcom.org.uk). The team cannot provide advice or pre-approve applications but can answer general questions.
- 1.5 Please download this form and fill it in on a computer. If completing by hand, please use block capitals and black ink.
- 1.6 Please answer all the questions as fully as possible, use extra sheets if required and provide the supporting documentation listed at Section 7 of Part B of the application form. Sufficient information must be supplied about the applicant and the proposed service to enable Ofcom to consider the application in accordance with the statutory criteria for the granting of small-scale radio multiplex licences. Ofcom may need to request further details from you before a licence can be granted.
- 1.7 Ofcom reserves the right to reject applications made using an old version of the form.
- 1.8 Ofcom will accept handwritten application forms, but they must be filled in using block capitals and black ink.
- 1.9 Ofcom reserves the right to reject application forms that are illegible.
- 1.10 You must answer all questions in the application form and respond “N/A” to any questions that do not apply to the applicant.
- 1.11 Ofcom reserves the right to reject applications which do not meet the following criteria:

- a) The declarations in Section 6 of this form and in Section 8 of Part B of the application form must both be signed and dated.
 - b) The person who signs and makes the declaration on behalf of the applicant must be:
 - i) A director of the company or the company secretary where the applicant is a company.
 - ii) A designated member where the applicant is a Limited Liability Partnership.
 - c) All supporting documents as requested in the checklist at Section 7 of Part B of the application form must be supplied in legible form and translated into English where applicable.
- 1.12 If you are completing the form as an agent, i.e. you are acting on the applicant's behalf, please note that you cannot sign it on your client's behalf, and that the person signing the form needs to have personally checked the truth and completeness of the responses given. If your client wishes you to be Ofcom's main contact in relation to the application, please make this clear in an accompanying letter, and provide evidence of your authority to act on behalf of the applicant. The form should be filled in so as to include information about the applicant, not the agent. If Ofcom has further questions once the application has been submitted, we will direct these to the applicant, not to the agent, but we will accept responses from the agent.

How to submit the form

- 1.13 We prefer application forms and required supporting documents to be submitted by email to smallscaledab@ofcom.org.uk. Handwritten applications and required supporting documents should be scanned and attached to the email.
- 1.14 You should receive a response from smallscaledab@ofcom.org.uk confirming that your application has been received by Ofcom. If you do not receive a response, it is likely your application has not been received and you should contact Ofcom's Contact Centre on 0300 123 3333 and ask to leave a message for the Broadcast Licensing team, who will respond to your message as soon as possible.
- 1.15 If the applicant cannot submit the application form and/or the supporting documentation by email, the applicant may submit the application and/or the supporting documentation by post to:
- Ofcom
Broadcast Licensing
Riverside House
2a Southwark Bridge Road
London
SE1 9HA
- 1.16 Those applicants who submit their application by post will be sent an acknowledgement.

Application fee

- 1.17 A non-refundable application fee of £500 is payable by bank transfer.
- 1.18 Applications will not be assessed until the application fee has been received in Ofcom's bank account.
- 1.19 Ofcom requests that applicants pay the application fee by bank transfer and that immediately after the applicant has instructed their bank to make the payment, confirmation of payment is emailed to ofcom.remittances@ofcom.org.uk.
- 1.20 To ensure that Ofcom can identify the payment, it must include a payment reference which is the applicant's postcode followed by the applicant's name (or as much of the name as is possible to provide within the character limit set by the bank) as provided in response to question 3.1 of this application.
- 1.21 The bank details to be used to pay the application fee are:
- Account Name: Office of Communications
- Bank details: Lloyds Bank, 69-73 Borough High Street, London SE1 1NQ
- Account number: 00782415
- Sort code: 30-97-90
- BIC: LOYDGB21351
- IBAN: GB05 LOYD 3097 9000 7824 15
- SWIFT: LOYD GB 2L

Supporting documentation

- 1.22 You must provide a range of supporting documentation when submitting this application form. Please refer to the checklist at Section 7 of Part B of the application form for full details. Please note that failure to supply the necessary documents will delay your application.
- 1.23 Ofcom reserves the right to reject applications with which the necessary documents are not supplied in legible form.
- 1.24 Please note that Ofcom cannot receive emails larger than 35MB. If your application email exceeds this limit, please send your supporting documents in a separate email(s), clearly indicating the applicant's name in the subject line of the email.

Provision of information

- 1.25 Ofcom requires complete and accurate information to assess applications. In particular, we must be satisfied that those applying for a licence are 'fit and proper' to hold a licence and are not disqualified from participation in a licence.

- 1.26 It is an offence under the Broadcasting Act 1996 (as amended) to provide false information or withhold relevant information during the application process, and may be grounds for revocation of a licence subsequently granted.

Publication of applications

- 1.27 Part A of the application form (i.e. this document) will be published by Ofcom on our website as soon as practicable following the closing-date for applications. Because this is the 'public' part of the application form, and Ofcom is legally required to publish applications for public comments, no questions should be answered by means of the submission of a confidential annex. Part B of the application form will remain confidential.
- 1.28 Ofcom may take into account any comments received from the public, which can be made to it with respect to Part A of the application submitted.
- 1.29 In submitting Part A of the application, you agree that Ofcom may publish contact details for the licensee, which may include personal data, on the Ofcom website and/or in other relevant publications.
- 1.30 When a licence is granted, the name of the service and public contact details for the licensee will be published on the Ofcom website. These are the details supplied by the applicant in the application form. If you have any questions about the information that we publish, or there are any changes to this information, you should contact the team by email (smallscaledab@ofcom.org.uk).
- 1.31 Ofcom considers issued small-scale radio multiplex licences to be public documents and copies of licences will be made available to third parties on request, noting that personal data apart from the name of the licensee may be redacted.

Data protection

- 1.32 We require the information requested in this form in order to carry out our licensing duties under the Broadcasting Act 1990, Broadcasting Act 1996 and Communications Act 2003. Please see Ofcom's [General Privacy Statement](#) for more information about how we handle your personal information and your corresponding rights.

Keeping up to date with broadcasting matters

- 1.33 We strongly recommend that you subscribe to receive Ofcom's regular email updates on broadcasting matters. These include a [monthly radio licensing update](#) that lists new services licensed, licences revoked, licence transfers, and changes to licensed services during the past month. To subscribe to these updates, please visit www.ofcom.org.uk/email-updates and select 'Broadcasting'.

2. Extent of proposed coverage area

About this section

Under section 51(2)(a) of the 1996 Act, we are required to consider the extent of the coverage area an applicant proposes to achieve within the area which has been advertised. This section therefore asks you to describe the coverage you are proposing to achieve. Further questions on the detailed technical arrangements for the proposed service, including questions on the transmission site(s) that you intend to use and your plans for how the multiplexing and distribution of your service will be arranged are contained in Part B of the application form.

Before completing this section of the form, you should read carefully the notes on 'Extent of proposed coverage area' in Section 4 of Ofcom's [guidance notes for licence applicants and licensees](#).

Applicants should note there are confidential questions relating to extent of coverage area in Part B of the application form.

- 2.1 Please provide a summary, fully consistent with the more detailed information about transmission sites supplied separately in Part B, of the coverage area proposed to be achieved by your technical plan. This should include a description of the target area you are seeking to serve within the advertised licence area, and also any areas you are aiming to serve outside the advertised licence area for this small-scale radio multiplex service. (You may refer to your coverage prediction in the response you provide):

The Alton, Petersfield & Haslemere DAB polygon is significant in terms of landmass, however it has one of the smallest populations of any polygon being advertised by Ofcom in round 5. Ofcom has indicated there is severe pressure on frequencies available for the South East of England macro area. Considering these challenges, we have put together a coverage proposal that we feel makes best use of scarce spectrum, protects other potential small scale multiplexes that may be awarded and is financially viable.

We have agreements in place to use our proposed transmission sites and these are submitted to Ofcom as a confidential appendix to this application. None of the sites requires any significant building works to accommodate our transmission equipment, and therefore we expect to be in a position to build out shortly after Ofcom approves our technical plan.

We acknowledge that coverage is limited, and not contiguous. Our approach is for an affordable network of transmitters that will ensure the long term financial viability of the multiplex while still providing good coverage in each of Alton, Petersfield & Haslemere at launch. We recognise the option exists to add further sites over time to extend coverage.

The combination of sites used means that we are able to be competitive in pricing our capacity, enabling a truly low-cost route to DAB digital radio for services in Alton, Petersfield & Haslemere for the first time.

We have deliberately ensured there is no overspill into other polygons and have tried to minimise potential co-channel interference.

2.2 Please provide summary details of the sites required to achieve this coverage by completing the table below (add additional rows as required):

Site name	NGR	Antenna height (m agl)	Antenna type proposed with bearing	New or existing antenna	ERP (W)
Alton	SU7174139289	15m	Omnidirectional	New	75w
Haslemere	SU8896632789	8m	Omnidirectional	New	75w
Petersfield	SU7525523820	12m	Omnidirectional	New	200w

- 2.3 Please provide below a coverage prediction map for the whole transmitter network you are proposing to build within 18 months if you are awarded a licence. The map should show the 63 dB μ V/m field strength and the advertised small-scale DAB licence area contour. [Small-scale DAB licence areas in GIS format](#) are available on the Ofcom website. In the interests of transparency, you **must** embed an inline map image within this form (even if you also submit a map as a separate supporting file).

2.4 Please provide the following details of the prediction software used for your coverage assessments:

Provide the name and version of the prediction tool used.	ATDI HTZ Communications x64
Detail the terrain model used by the software and its resolution.	DTM: DEFRA 1m and 2m resolution (DSM+DTM)
Detail the ground cover (clutter) data used by the software and its resolution.	Buildings: DEFRA (automatic extraction – slope algorithm - performed at 2 m resolution then resampled) Vegetation (park, wood, forest) and Hydro from Corine Land Cover 2018 and Urban Atlas 2018 (European Environment Agency) Roads and railways from Open Street Map (2019)
What propagation algorithm has been used?	Model pre-set: Fresnel Diffraction geometry: Deygout 94 Subpath attenuation: Coarse Integration FZ fraction: 0.8 Earth radius (sea and land): 28,500km
Where multiple sites are proposed, describe what methodology has been used to assess the network (SFN) gain	Power Sum
If these predictions have not used Ofcom-provided population data, state what population data has been used and its source.	Ofcom data used
Have your predictions been generated by a commercial organisation? If so, by whom?	UK DAB Networks (Operations) Ltd

3. Ability to establish the proposed service

About this section

In Section 3, we are asking questions about the applicant company, its financial and business plan, the relevant expertise and experience of those who will be involved in providing the small-scale radio multiplex service, and the timetable for coverage roll-out. The answers to these questions will enable Ofcom to assess the application under section 51(2)(c) of the 1996 Act. Additional information is requested in Part B of the application form.

In the first part of this section we are asking for details of the applicant's officers (directors or, in the case of LLPs, designated members), its shareholders and participants. Where applicable, we are also asking for details of the officers of the applicant's parent and associated companies or LLPs etc.

If any of the individuals named in your responses are known by more than one name/version of their name, all names must be provided.

Certain persons are disqualified from holding a small-scale radio multiplex licence. This section asks the questions which enable us to consider this for those types of disqualification which apply specifically to bodies corporate. It also asks questions which are relevant to our assessment of the applicant's fitness and properness to hold a small-scale radio multiplex licence.

The response boxes and tables should be expanded or repeated where necessary or provided in a separate annex.

'Officerships' in this section refers to: directorships of bodies corporate, designated memberships of LLPs, or membership of a governing body of an unincorporated association (including partnerships).

The remaining questions in Section 3 relate to the applicant's financial and business plan, the expertise and experience of those involved, and the planned timetable for launching the proposed multiplex service.

Applicants should note there are confidential questions relating to extent of coverage area in Part B of the application form.

Applicant's details

3.1 Name of applicant (i.e. the body corporate that will hold the licence):

Provincial DAB Ltd

3.2 Company registration number stated on Companies House (if applicable):

14970628

3.3 For UK registered companies, the address of the applicant's registered office stated on Companies House. For non-UK registered companies, the principal office address:

St Hilary Transmitter, Cowbridge, CF71 7DP

3.4 If a UK registered company, is the **current** Memorandum and Articles of Association document available on the Companies House website?

Yes (delete as appropriate)

If no, please submit the up-to-date document and indicate you have done so in the checklist in Section 7 of Part B of the application form.

Ownership and control of company which will hold the licence

Details of officers

3.5 Please complete the following table, expanding it if necessary, to provide the following details for each director or designated member of the applicant (i.e. the body corporate that will hold the licence):

Details of applications, licences and sanctions

3.13 Please answer ‘yes’ or ‘no’ to the following questions about the applicant (i.e. the body corporate that will hold the licence):

- a) Is the applicant a current licensee of Ofcom?
No (delete as appropriate).
- b) Has the applicant ever held an Ofcom broadcasting licence before?
No (delete as appropriate).
- c) Has anyone involved in the proposed service held an Ofcom broadcasting licence or been involved in an Ofcom-licensed broadcast service before?
Yes (delete as appropriate).
- d) Does the applicant control an existing Ofcom licensee?
No (delete as appropriate).
- e) Is the applicant controlled by an existing licensee or by any person who is connected (within the meaning of Schedule 2 to the Broadcasting Act 1990) with an existing licensee (i.e. as a “participant”)?
Yes (delete as appropriate).

² Please refer to sections 3 to 5 of Ofcom’s [religious guidance note](#) for details on how we determine the eligibility of religious bodies to hold certain broadcasting licences.

- f) Has the applicant – or any person(s) controlling the applicant - made any other application to Ofcom (or its predecessor broadcast regulators – the Independent Television Commission and the Radio Authority) for any licence which has since been surrendered by the licensee or revoked by Ofcom (or one of its predecessor regulators)?

Yes (delete as appropriate).

- g) Has the applicant – or any person(s) controlling the applicant - made any other application to Ofcom (or its predecessor broadcast regulators – the Independent Television Commission and the Radio Authority) for any licence which has since been surrendered by the licensee or revoked by Ofcom (or one of its predecessor regulators)?

Yes (delete as appropriate).

- h) Is the applicant – or any person(s) controlling the applicant – subject to any current or pending investigation by any statutory regulatory or government body in the United Kingdom or abroad in respect of any broadcast-related matter?

No (delete as appropriate).

- i) Has the applicant – or any person(s) controlling the applicant – ever been subject to a statutory sanction for contravening a condition of a broadcasting licence in the UK or any other jurisdiction?

No (delete as appropriate).

3.15 Please provide any further information you hold, relating to the past conduct of the applicant or those individuals listed, in regulatory matters or in matters going to honesty and/or compliance, which may be relevant to Ofcom's consideration of whether or not the applicant is fit and proper to hold a broadcast licence. If the applicant or the form signatory fails without reasonable excuse at this point to declare any matter of which Ofcom subsequently becomes aware, and which we consider to be relevant to the applicant's eligibility to hold a licence, we will take it into account in determining the question of whether the applicant/licensee remains fit and proper to hold a licence.

If you have no information to provide, please respond "N/A".

N/A

3.16 Has the applicant – or any person(s) controlling the applicant – ever been convicted of an unlicensed broadcasting offence?

No (delete as appropriate).

If yes, please provide the following details:

Full name	Date of conviction/action (dd/mm/yy)	Penalty

Financial and business plan

- 3.17 Please provide a high-level estimate of the costs you believe will be required to establish the multiplex service.

The applicant is a newly established company owned and run by experienced operators of community radio, DAB multiplex and SSDAB services.

UK DAB Networks (Operations) Ltd is active in the DAB industry as multiplex operator in its own right in the neighbouring Basingstoke and Winchester polygons, as well as having provided consultancy services and multiplex management for a number of years.

Wey Valley Radio is an established Ofcom licenced community radio service. Shine Radio and Radio Haslemere are also established online operators based in the locality.

Due to the difficult terrain of the polygon and the relatively low population, our approach has been to propose a low cost and affordable multiplex to operate. Our shareholders Wey Valley Radio, Shine Radio and Radio Haslemere see this multiplex as being an affordable route to digital radio in their respective towns, with income gained from selling capacity to third party services being used to subsidise their transmissions with a view to generating a modest profit in the longer term.

Start-up capital requirements of transmitter and associated equipment will be provided through our three largest shareholders. This will be obtained through grant funding, with each station committing to fundraising the required capital. All three services have a track record in local fundraising and are confident of meeting this.

Services provided by UK DAB Networks (Operations) Ltd (application writing/multiplex management), Readyformed Solutions Ltd (engineering) and Earshot (project management) will be provided free of charge to Provincial DAB until the multiplex has fully launched.

Our proposed transmission sites have peppercorn rents, and therefore once established, the multiplex is expected to have very low overheads, save for electricity, telecoms, administration and maintenance.

We are budgeting for launch costs of £20,000 with a contingency of just over 10%.

3.18 Please indicate how the costs outlined in 3.17 (above) will be met, under the following headings:

a) Share capital

£100 of share capital is currently held as cash

b) Loan stock

n/a

c) Leasing/HP facilities (capital value)

N/A

d) Bank overdraft

N/A

e) Grants and donations

Costs to be met by grants obtained by our three largest shareholders

f) Other (please specify)

In the event there is a shortfall in grant funding, we will consider obtaining a start-up business loan to capitalise the business.

3.19 Expanding the table if necessary, please list the providers of the funding which will be used to establish the service, and the amount of funding that each will provide. For incorporated investing shareholders, please provide a copy of the most recent statutory accounts if they are not currently available on Companies House.

Name of shareholder or investor	Percentage of shares held (if applicable)	Amount of funding provided (£)
Haslemedia Ltd	25%	£7500
Shine Radio Ltd	25%	£7500
Wey Valley Radio (Alton) Ltd	25%	£7500

3.20 All of the funding identified above should be confirmed. If any funding has not been confirmed, or if there are any pre-conditions before the funding is released which have not yet been met, provide an explanation of what needs to be done, the dates by which it needs to be carried out, and any steps the applicant needs to take to ensure the funding is confirmed and/or released.

Funding to be obtained through grants/fundraising once the licence has been awarded by Ofcom.

Relevant expertise and experience

3.21 Please provide details of who will be responsible for the day-to-day general management of the multiplex service (for example, dealing with programme service providers and contractual matters). Please also briefly state their previous relevant experience. (Note that any individuals or contractors who cannot be identified at this stage can instead be included in the confidential section (Part B) of the application form.)

We have access to a number of individuals with significant DAB experience. This expertise will ensure a smooth, professional launch and successful ongoing operation of the multiplex.

Day-to-day management of the multiplex will be by Ash Elford through UK DAB Networks, a DAB multiplex consultancy, ownership and operating company. Ash is one of the UK's pioneers in SSDAB and has overseen the establishment and successful operation of a number of small scale DAB multiplexes.

Our engineering will be contracted to Jonathan Cohen of Readyformed Solutions Ltd who has managed the transmission of a number of community radio services and is currently involved in the deployment of the Bedford small scale DAB multiplex.

Stephen Martin from Earshot Ltd will provide project management, communications and support services. Stephen is a broadcast industry veteran who is a business representative of the BBC in Africa and who co-founded Shine Radio in Petersfield with Richard Gaisford.

Wey Valley Radio are a long established community broadcaster based in Alton. It's founder David Way has decades of experience of broadcasting in the local area having been involved with the former Delta FM and Wey Valley Radio services in the 1990s.

Radio Haslemere is backed by local resident Jamie Crick who has three decades of national radio experience including Classic FM, Jazz FM and Scala Radio. Jamie was also involved with Encore Radio, a local Surrey DAB station.

Finally, Shine Radio is a Petersfield broadcaster that has quickly grown a strong online following in the local area. The station won Digital Station of the Year at the 2022 Community Radio Awards and has a number of experienced local broadcasters as part of the team.

- 3.22 Please provide details of who will be carrying out the installation and on-going maintenance of your multiplexing / transmitter equipment (or the name of your proposed transmission and multiplex provider if you intend to use a third-party organisation for these services). Please also briefly state their previous relevant experience. (Note that any individuals or contractors who cannot be identified at this stage can instead be included in the confidential section [Part B] of the application form.)

Function	Responsible party	Previous experience

Ongoing maintenance of the transmission equipment	Readyformed Solutions Ltd	Experience of transmission systems

		for the Bedford DAB multiplex
Installation of the Multiplexing equipment	Readyformed Solutions Ltd	Experience of transmission systems for the Bedford DAB multiplex
Day-to-day technical management and maintenance of the multiplexing equipment (if different from response to question 3.28 above)	UK DAB Networks (Operations) Ltd	Significant experience of managing DAB multiplexes

Timetable for coverage roll-out

- 3.23 Please tell us how soon after license award you expect your multiplex service to become operational and achieve the coverage you are proposing:

We have written agreements in place to use all of our transmission sites. We have existing working relationships with our equipment suppliers and contractors. We expect to launch within 12 months of Ofcom awarding the licence from all transmission sites.

- 3.24 In addition, please provide, as an annex to be submitted with this application, an outline project plan with timeline (e.g. a Gantt chart or similar) showing the high level activities and tasks leading up to the launch of your multiplex service.

See attached file.

4. Involvement of C-DSP providers; demand or support from programme providers

About this section

Section 51(2)(ca) of the 1996 Act requires Ofcom to take into account the desirability of awarding a small-scale radio multiplex licence to a body corporate that is providing – or proposing to provide – a C-DSP service in the locality being advertised (or involving such a person as a participant in the licence-holding company).

Section 51(2)(f) of the 1996 Act requires Ofcom to take into account evidence that the applicant has support from providers interested in having their existing or planned programme services carried on the proposed multiplex.

Note that we do not require applicants to provide us with a full line-up of services they intend to provide, or details about the content of those services.

Involvement of C-DSP providers

4.1 Is the applicant body proposing to provide its own C-DSP service on the multiplex?

No (please delete accordingly)

4.2 If the answer to the above question is 'yes', please provide a name and brief details of this proposed service. If the service is already licensed by Ofcom, the licence number should be provided:

- 4.3 If the answer to the above question is ‘no’, please provide details of any participant in the applicant body that is proposing to provide a C-DSP service on the multiplex. In this context, a “participant” refers to a person who holds or is beneficially entitled to shares in the applicant or possesses voting power in the applicant. If the service is already licensed by Ofcom, the licence number should be provided. Please refer to the nature of the participation (e.g. shareholding or agreement in relation to voting power):

Shine Radio

The service is not licenced by Ofcom, but has been online for several years. It is the intention of Shine Radio to apply for a C-DSP licence.

Shine Radio will apply for a C-DSP licence through non-profit entity Petersfield Community Radio Ltd. Its wholly owned subsidiary Shine Radio Ltd is a Shareholder and Director of Provincial DAB Ltd

Wey Valley Radio

The service is a licenced Ofcom community radio service. It is the intention of Wey Valley Radio to apply for a C-DSP licence.

Wey Valley Radio is a Shareholder and Director of Provincial DAB Ltd

Demand or support from programme providers

- 4.4 Please provide in the table below (expanding the table if necessary) the names of providers (or prospective providers) of community or local digital sound programme services who have expressed their demand or support for the provision of the proposed multiplex service in the area to be served by the multiplex service. For reasons of transparency, the response to this question *must be answered below and should not be provided as a separate annex*. The evidence of the demand or support, such as signed heads of terms or emails, should be provided as a confidential annex, and relate only to the specific multiplex being applied for.

Name of service provider and station name (if known)	Proposed C-DSP or DSP	Nature of evidence of support provided

5. Fair and effective competition

About this section

Section 51(2)(g) of the 1996 Act requires Ofcom to assess whether, in contracting or offering to contract with programme service providers, the applicant has acted in a manner calculated to ensure fair and effective competition in the provision of community and local digital sound programme services.

In assessing applications, we need to have confidence that the prospective small-scale radio multiplex licensee has approached a wide range of potential service providers. Negotiations that have taken place between the applicant and potential service providers need to have been demonstrably fair, and the terms of any contract for service provision must be fair and non-discriminatory.

Applicants should note there is one further question relating to fair and effective competition in Part B of the application form.

- 5.1 Please detail the measures that have already been taken, and will be taken before and during the licence period, to demonstrate that, in contracting or offering to contract with programme services providers, the applicant has acted in a manner calculated to ensure fair and effective competition in the provision of such services.

For example, how have you sought to engage a broad range of prospective service providers including those not directly involved as participants in the application and those who have decided not to proceed to express an interest or agree heads of terms at this stage, and how have you sought to make prospective service providers aware of your proposals and potential terms for carriage?

In preparation for our licence application, UK DAB Networks invited broadcasters that it has relationships elsewhere with to join our application, as well as other broadcasters that we are aware of by email.

UK DAB Networks placed notices on its website, LinkedIn, social media and Wohnort.org.

Small-scale radio multiplex licence: Application form (Part A)

The image shows two screenshots related to a radio multiplex licence application. The top screenshot is a Facebook profile for 'UK DAB Networks', which has 504 likes and 531 followers. The profile picture is a green hexagon with a white map of the UK. The page features a post from June 22, 2023, stating that UK DAB Networks is 'feeling excited' about new small-scale DAB applications as part of Round 5 of Ofcom's licencing programme. The post lists several locations: Aldershot/Guildford/Woking, Alton/Haslemere/Petersfield, London - North, London - South, London - West, Portsmouth, Reading, and South West Sussex. It also includes a 'Boost post' button.

The bottom screenshot is a website for 'Wey Valley Radio 101.1FM North East Hampshire'. The website has a navigation menu with links for HOME, DIRECTORY, ADVERTISE, SCHEDULE, ABOUT, and CONTACT. Under the heading 'Latest News about Wey Valley Radio', there is a news article dated June 28, 2023, titled 'Wey Valley Radio plans DAB expansion'. The article discusses the expansion of community radio services in Surrey and Hampshire, mentioning that Wey Valley Radio is working with UK DAB Networks to apply for an SSDAB Ofcom licence. It also includes quotes from David Way, the founder of Wey Valley Radio, regarding the opportunity to broadcast on DAB.

Shine Radio promoted its involvement in the application on its website.

The screenshot shows the Shine Radio website with a green header. The header includes the 'petersfield's shine radio' logo, a 'join our team' button, and the 'community radio awards' logo. The navigation menu contains 'About', 'How to listen', 'Schedule', 'Local events', 'Weather', and 'Programmes'. The main content area features a news article titled 'Community radio services in Surrey and Hampshire are joining forces to serve listeners via small-scale DAB' dated Jun 29, 2023. The article text discusses the collaboration between community stations in Alton, Haslemere, and Petersfield with UK DAB Networks to apply for a digital radio licence. It includes quotes from Ash Elford of UK DAB Networks, Kate Fairweather of Petersfield's Shine Radio, and David Way, the founder of Wey Valley Radio. A sidebar on the right contains a search bar, a 'Latest listening' section with three featured images and captions: 'Talking Books - June 2023', 'Talking Books - May 2023', and 'The Centre of Complementary Medicine is to re-centre within Petersfield', and 'Cedar Ward NHS 75th celebration & thank you'.

Post licence award, we will maintain a website and social media presence and invite broadcasters to contact us. If we are oversubscribed with interest from broadcasters, we will keep interest on file and contact them when capacity becomes available. We will allocate the capacity in a way that ensures the greatest diversity of formats and service providers. **We will treat C-DSP and DSPS providers fairly.**

6. Declaration

About this section

This form must be submitted by the body corporate which will hold the licence. The declaration must be certified by a company director or the company secretary, and covers all information provided by in the applicant in both Part A and Part B of the application form. The declaration must also be dated.

- a) I hereby apply to Ofcom for the grant of a licence for the small-scale radio multiplex licence described above and declare that the information given in this application form is, to the best of my knowledge and belief, correct.
- b) I further declare and warrant:
 - i) that the applicant is not a disqualified person within the meaning of that expression as defined in Part 2 of Schedule 2 to the Broadcasting Act 1990, as amended, or as a result of a disqualification order under section 145 of the Broadcasting Act 1996;
 - ii) that having made all reasonable enquiries neither the applicant nor any person controlling the applicant, as result of the grant to me of the licence, breach any requirement of Schedule 14 to the Communications Act 2003 with regard to the accumulation of interests in broadcasting services or to the restrictions on cross-media interests;
 - iii) that the applicant is not disqualified by virtue of the provisions of section 143 (5) of the Broadcasting Act 1996 in relation to political objects and the provisions of section 144 (3) of the Broadcasting Act 1996 in relation to the provision of false information or through the withholding of information with the intention of misleading Ofcom; and
 - iv) that no director or person concerned directly or indirectly in the management of the Licensee is the subject to a disqualification order as defined by section 145 (1) of the Broadcasting Act 1996.
- c) I understand that Ofcom reserves the right to revoke the licence (if granted) if at any time any material statement made to Ofcom is found to be false and to have been by the applicant or any member or officer thereof knowing it to be false. I also understand that under sections 144 and 145 of the Broadcasting Act 1996, the provision of false information could incur a criminal conviction and a disqualification from the holding of a Broadcasting Act licence. I further certify that, to the best of my knowledge, any matters which might influence Ofcom's judgement as to whether the directors and substantial shareholders involved in this application are fit and proper persons to participate in a radio licence, have been made known to Ofcom.

Full name (BLOCK CAPITALS) of the person authorised to make the application of behalf of the applicant:
