*Thank you for taking part in this research about how you go online and the types of websites and apps you visit. YouGov is conducting this research jointly with one of our clients who is a regulator for communications services that we use and rely on each day. This survey may contain some questions asking about times you may have seen something that made you feel uncomfortable on the internet.*

*The information we collect within this survey, as well as other personal information you have already given us through your YouGov membership, will help our client to understand people's experiences online. Please be aware that some information collected from you may be 'sensitive' in nature, for example information about your sexual orientation, ethnicity, or religion. There is no obligation to answer these questions, you will have the option to 'skip' if you'd prefer not to respond.*

***Unless we specifically ask for your permission to do otherwise, YouGov will only share anonymous data with our client. This means that they will not be able to identify you from the information they receive. All personal data you have given us will strictly be used for research and analysis purposes only.***

*You have the right to withdraw your consent to process the information you have provided at any time during or after the research. You may exit the survey at any time and your data will not be included in the results shared with our client. If you would like to withdraw your consent after completing the survey, please contact YouGov at [ORPwithdrawal@yougov.com](mailto:ORPwithdrawal@yougov.com)*

*If you are happy to continue on the basis described above, please give your consent by selecting the start button below to proceed to the survey.*

## SECTION 3: ATTITUDES

[ASK ALL] Today we would like to ask you some questions about how you go online and the types of websites and apps you visit. The survey also contains some questions asking about times you may have seen something that made you feel uncomfortable on the internet.

[ASK ALL]

[Use the rule scale]

Q1. For each pair of statements, please drag the slider to indicate where your own view lies and click to confirm your choice before moving to the next pair of statements. Dragging the slider to the far left means that you agree completely with the first statement, and dragging to the far right means that you agree completely with the second statement. You can position the slider anywhere in between.

If you do completely agree with the statement on the left, please move the slider back and forth back to its original position. If you do not move the slider, it will not register as a response.

Please remember there are no right or wrong answers, we are simply looking for your opinion.

1. It is the responsibility of the website or app to control what is posted on their site vs. It is the responsibility of the individual to ensure what they are posting is appropriate for other users
2. It is the responsibility of the search engine to control what is presented in search results vs. It is the responsibility of the individual to ensure they have the correct settings in place to only be presented with content appropriate for them
3. I feel confident in my ability to stay safe online vs. I do not feel confident in my ability to stay safe online
4. Using a bit of common sense when you're online usually prevents you from seeing harmful or offensive photos and videos vs. It is impossible to avoid seeing harmful or offensive photos and videos if you go online
5. The Internet has an important role in supporting free speech, even when some users might find the content offensive vs. It is important for sites to monitor and remove offensive views to protect other users

8

6. There are enough online safety measures in place vs there should be more online safety measures in place
7. For me personally, the benefits of going online outweigh the risks vs. For me personally, the risks of going online outweigh the benefits
8. The internet is good for society vs. the internet is damaging to society

## SECTION 4: USAGE & ACTIVITIES

**Q32b2. Which type of online fraud or scam did you lose money or assets to? If you think it covers multiple options from the list below, please select more than one type.**

1. **Impersonation fraud** - Fraudsters pretend to be from a legitimate organisation (e.g. a financial institution, the NHS, lottery institution, solicitors, government officials) and request a payment or information from you.
2. **Counterfeit goods scam** - Counterfeit goods (e.g. fake designer brand clothes, accessories, perfumes, pirated copies of DVDs and computer games), often found at auctions and web marketplaces, where you can't check if the products are genuine until the item has been delivered.
3. **Investment, pension or 'get rich quick' scam** - Fraudsters often present themselves as a trustworthy institution or advisor to pressurise you to invest money, or by luring with returns that are too good/ quick to be true. They may present legitimate sounding investment opportunities such as energy firms, the foreign exchange market, or cryptocurrencies.
4. **Computer software service fraud or ransomware scam** - Fraudsters use computer techniques to disable your computer's normal functioning, sometimes unknowingly to you, to steal your money or personal information.
5. **Fake employment scam** - Job advertisements that claim you can make a lot of money with little time and effort. You may be required to buy a starter kit, tools or goods that are worthless.
6. **Romance or dating scam** - Fraudsters pretend to be someone else or lie to gain your affection and trust, and eventually ask for your money or financial information to purchase goods and services.
7. **Health or medical scam** - Health products or medication that are described as alternative forms of medical cures, or you believe are exactly the same as another legitimate brand of medication at a lower price. You may have seen advertisements promising miracle results, or you are allowed to make a purchase without a valid prescription.
8. **Identity fraud** - Fraudsters pretend to be you by accessing information about your identity (e.g. name, date of birth, current or previous addresses) and use it to obtain goods or services without your permission.
9. **Psychic or clairvoyant scam** - Fraudsters approach you to say they have seen something special in your future and ask for money in order to provide you with a full report about it. They may ask forcefully or may threaten to invoke bad luck if you refuse.
10. **Holiday scam** - Holidays advertised online (e.g. using social media) that are fake or misrepresented.

11. **Money mule recruitment or money laundering** - Fraudsters recruit people as money mules to transfer illegally obtained money between different bank accounts, sometimes internationally.
12. **Purchase scam** - Advertising/selling products (e.g. devices, appliances, concert tickets, pets) which you do not receive after the order/bank transfer has been made.
13. **Don't know / unsure [FIXED, EXCLUSIVE]**

You have been identified as a possible candidate for future follow-up research tasks that the YouGov team will be running over the next year. If selected, this will involve you having the opportunity to participate in activities such as online focus groups, online communities or online interviews, with all incentivised.

To be eligible we will need your permission to use your previous responses from this survey so that we can identify you as the right person for the different future tasks. This information and any future tasks you are invited to participate in will only be managed by the YouGov team.

Would you be willing to be contacted for these future research tasks?

<1> Yes, I am willing to be contacted

<2> No, I am not willing to be contacted
